

FLARE-UP IN BALKANS IS FEARED BY POWERS

Servian Frontier Guards Arrest Austrian Soldiers on Border

REFORMS DEMANDED

Europe Will Bring Pressure to Bear on Turkey to Avoid Trouble

BELGRADE, Serbia, Sept. 25.—A grave frontier incident occurred today when six fully equipped Austrian soldiers under the command of Lieutenant Szekeres were arrested by Servian frontier guards and charged with espionage.

The Austrian soldiers belonged to the garrison of the Hungarian town of Pancsova, about ten miles to the northeast of the Servian capital.

LONDON, Sept. 25.—The crisis in the Balkans is causing great uneasiness among diplomats here. In clients such as the arrest today of Austrian soldiers on the Servian frontier and the firing by Turkey on a Greek steamer at Smyrna are considered as evidence of the serious situation.

The danger of the situation places it in the forefront of the conversations at Balmoral between King George and Secretary Balfour, the Russian foreign minister.

It is understood that Russia will propose the adoption of an Anglo-Russian scheme of reform for submission to the powers.

CONSTANTINOPLE, Sept. 25.—An incident has been caused in diplomatic circles here in regard to the decision of the Turkish government to hold extensive army maneuvers next month in the vicinity of Adrianople. It is said 50,000 troops are to be put in the field.

It is thought that this action may furnish Bulgaria with a pretext to attack. It is also feared that it may encourage the Bulgarian cabinet.

Representatives of the powers in the course of conversations with the Turkish foreign minister recently dealt with the necessity of introduction of reforms in the European provinces of Turkey.

They have pointed out the desirability of Turkey's setting some measure in the way of the reform which was declared it would become difficult for the powers to use their influence with the Turkish states in the future.

GREAT POWERS THREATEN CHINA

British Minister Says Yuan Must Borrow Money As He Is Told

PERKIN, Sept. 25.—The British minister to China recently advised President Yuan Kai Shih that the situation before him was a serious one.

He said that the situation before him was a serious one. He said that the situation before him was a serious one. He said that the situation before him was a serious one.

TESTIMONY GIVEN IN SNEAD CASE

AMARILLO, Texas, Sept. 25.—Cross examination of Mrs. L. A. Rogers of Dallas, Texas, relative to letters signed "Albert" alleged to have been shown her by Mrs. Sned in July and August of this year, occupied most of the afternoon in today's hearing of the habeas corpus proceedings in behalf of John Neal Sned, alleged slayer of Al C. Boyce.

Mrs. Rogers gave statements as to her knowledge of the alleged plot against Sned and testified that on one occasion Mrs. Sned had written her that she was expecting to become a mother and that Boyce had replied expressing great kindness.

CARBANDIT KILLED AFTER ROBBERY IN SAN FRANCISCO

SAN FRANCISCO, Sept. 25.—An unidentified bandit, believed to be the same who held up two cars on the San Francisco-San Mateo line nearly two weeks ago, was shot and killed tonight after a spectacular holdup and pursuit. Al Kaufman, a special patrolman, was wounded by the bandit, but not seriously.

The bandit, who is described as young and of a foreign accent, boarded a cable car at the foot of Powell street. He held up the conductor, from whom he took \$33. Then he forced the conductor to go to the forward end of the car, where the motor-man was robbing of \$22.

After the car was robbed, the bandit directed the motor-man to run the car toward the center of the city. He told a passenger who was taken aboard was robbed by the bandit of a few dollars. When the car reached a few blocks, the bandit and the motor-man exchanged shots. The bandit was killed.

Finally the bandit was forced to face about in blind alley in the wholesale district of the city. As he raised his revolver a volley from the weapons of his pursuers ended the life of his head off.

NEW DISCOVERY OF GOLD AT NOME

NOME, Alaska, Sept. 25.—A rich strike of placer gold has been made on the Klondike river at Nome. The ground yields \$2.50 to the pan. There is great excitement for it is believed that an extension of the third beach line, which yielded so many millions of dollars, has been discovered.

RADICAL CHARTER FOR LOS ANGELES

County to Have But Three Elective Offices, Besides Supervisors

LOS ANGELES, Sept. 25.—The final draft of the Los Angeles county charter, proposing sweeping changes in the county government, is in file today and will be voted upon by the people in the November election. The instrument is the first to be drawn under the law enacted by the last legislature, and its provisions, if adopted in November, it is said, will make the county the first in the United States to have a practically autonomous government.

The new charter reduces the elective offices to three, in addition to the five members of the board of supervisors. These elective offices are district attorney, sheriff, and county assessor. Every officer, elected or appointed, will be subject to the recall and all appointive positions, with one or two exceptions, will be regulated by an extensive civil service system.

The charter also provides for a public defender, who according to the provisions of the instrument, must not only defend indigents accused of public offenses, but must come to the aid of the poor when they are harassed by litigation and institute suit on behalf of those from whom wages or other just claims are withheld.

The new charter also changes the system governing the constabulary, and abolishes all fees. Constables are placed on salary and will be under the authority of the sheriff.

If adopted in November, the charter will become effective in June, 1913.

COURT PROCEEDS WITH THE TRIAL OF UTLEY

Hearing to Oust District Attorney for Not Enforcing Laws

SAN DIEGO, Sept. 25.—The case will be heard on its merits. The case will be heard on its merits. The case will be heard on its merits.

The most important witness of the day was Frank Oakley, a pure food inspector. The prosecution sought to show by his testimony that Utley had refused to bring prosecutions under the pure food laws. The witness, however, would not say that Utley had declined to issue complaints for such prosecutions. On cross examination, Oakley admitted that Utley had offered him the services of a detective and had directed two pure food prosecutions which resulted in convictions.

The hearing will be resumed tomorrow.

SAN DIEGO, Sept. 25.—Late this afternoon the task of obtaining the jury to try Herbert Lewis, charged with the murder of Mrs. C. H. Tolliver May, was finished and the twelfth juror was sworn in. The case was then adjourned until tomorrow morning, when the trial will begin in earnest.

DEMOCRATS END CONVENTION EARLY THIS MORNING

Only Thirty Members Left at Close of Long Session

PLATFORM SUMMARY TO KEEP ESSENTIALS

Condemns Application of Direct Legislation Only a Anti-Trust Law to Labor Unions

SACRAMENTO, Sept. 25.—With thirty members out of 103 in attendance, some of them asleep, the Democratic state convention adjourned this morning at 12:30 o'clock after three days of nearly continuous sessions, having adopted a platform, nominated presidential electors and named a state central committee.

SAN FRANCISCO, Sept. 25.—Borned on a restless tide of debate, the Democratic state convention was adjourned at 12:30 o'clock today.

A handful of tired, sleepless and irascible delegates struggled with the grave questions at issue. Thirty-five out of 103 members constituted the quorum when recess was taken at half past 1 o'clock until 10:30 tonight.

Senator Cammeltt the chairman, was asked what would happen to a member who raised a question of quorum. "We'll kill him," said the chair.

Session until 1:30 this morning and convened at 12:30. The delegates and officers were outworn by the uncertainties of the state primary law and the problem of the platform.

Just before taking a recess a platform containing thirty-eight articles was adopted. It contained so many amendments that the secretary was hesitant about entrusting it to a stenographer, for fear that the official copy could not be read. In general, the platform sought to follow the national platform and the suggestions of Mr. Bryan made yesterday. It was to honor Bryan again that the convention took recess.

It was decided, acting on the opinion of the committee on law, that E. L. Doehny of Los Angeles now in New York, may represent the tenth district as an elector, though absent from the convention, and endangering the remainder of the ticket.

Whether to place the names of the electors on the ballot by petition as well as by certification had not been decided upon when adjournment was taken nor did the members know whether or not they should test the state primary law by a recall suit, as has been proposed and fought.

The Democratic state central committee will convene in San Francisco on September 28 to perfect its organization and put into effect the platform adopted here this morning by the Democratic state convention.

In general, the platform follows the recommendations of the national platform, adopted at Baltimore and the recommendations advanced by W. J. Bryan. The most important planks are:

- 1.—Support of Wilson and Marshall.
- 2.—Direct election of senators.
- 3.—Condemnation of the Sherman anti-trust law as applied to the trades unions.
- 4.—A graduated income inheritance tax law.
- 5.—The prohibition of indigent mothers and young children.
- 6.—Improvement of the initiative, referendum, recall and women's suffrage.
- 7.—Extension of injunctions.
- 8.—Limitation of the women's 8-hour law.
- 9.—Opposition to the revival of race track gambling.
- 10.—Protest against the present operation of the state mill at San Quentin penitentiary.
- 11.—The election of delegates to the national convention by congressional districts instead of by state wide vote.

NIGHT HIGH SCHOOL HAS 200 PUPILS

Children From 30 to 70 Years of Age Are in Attendance

LOS ANGELES, Sept. 25.—With an enrollment the largest in its history, the Los Angeles night high school was opened last night. More than 200 among the boys and girls range in age from 30 to 70.

Boys and girls with flowing beards were seated beside young men and women entered in the various studies and departments.

The classes in penmanship, arithmetic, mathematical drawing and bookkeeping seemed to draw the largest number of the older students, but nearly all of the other studies had a sprinkling of the aged.

Announcement was made that any subject wanted by a sufficient number of students would be taught at the evening school.

TO BE SHOT FOR MURDER. SALT LAKE, Sept. 25.—Harry Thorne, a youth accused of the murder of George W. Fassett two years ago, at the state prison tomorrow morning. He has chosen shooting as the mode of execution. Thomas Riley, who assisted Thorne in holding up Fassett's store, when the grocer was killed, is under

## WILSON OPPOSES THE RECALL OF JUDICIAL OFFICERS

(Continued From Page 1)  
When Colonel Roosevelt reached Memphis a crowd that was waiting for him at the station, followed him to his hotel and cheered. Finally Colonel Roosevelt capitulated. He came out on the balcony, thanked the crowd and added:  
"Now I want to act as town crier myself. If there are any of the crowd I want hunting with me, I want to see them. I want them to come right up and talk about bears."  
The bear hunters were there, and Colonel Roosevelt set up for another hour talking over his famous bear hunt in Mississippi when he was President.  
**TAFT AT ALTOONA.**  
ALTOONA, Pa., Sept. 23.—President Taft was the principal speaker today at Altoona's celebration of the fifth anniversary of the meeting here of the Loyal War Governors who decided that Abraham Lincoln and his war policy should be upheld and his call for more troops should be met promptly with volunteers.  
Through that meeting and those which followed, the President declared, there entered into the soul of Lincoln the conviction that the country was behind him in his effort to end the war.

### ECZEMA ALL OVER BODY

Extract from letter of a prominent citizen in Maine who suffered torment with eczema all over his body.  
"I tried every kind of treatment, physicians, specialists, and was about discouraged until I began using HOKARA. My doctor said it would be phenomenal if HOKARA cured me. A few applications quickly relieved, and in a short time HOKARA worked a wonderful cure of my trouble." (Name on request.)  
If you have any skin trouble, why not get a jar of HOKARA today and see how quickly it effects a cure?  
Guaranteed by Paterson Block Pharmacy, local agents.  
Liberal jar 25c, larger sizes 50c and \$1.00.

### Did You Ever Lunch at NORTON'S?

If not, there is a surprise awaiting you. Norton's has a large dining room, with little private rooms at the sides. Their service will please you, as everything is clean and white. You will be served the best lunch that can be cooked—as nothing but the best is used. Try a lunch at Norton's and you will take another.

and to bring the South back into the union.  
The fourteen loyal governors who supported Lincoln in the dark days of '62, the President called heroes who did not advertise the deeds they were about to do, who made use of "bait" and "bait" saying simply, "we will see you through."  
**PROSPERITY TALK.**  
The President's speech dealt almost entirely with the confidence of the war governors, but he reserved a sentence or two for prosperity talk.  
The President left today for Denver. He expected Chairman Hill of the national committee to board his private car at Harrisburg and make the journey north to help him discuss New England politics with Republican leaders there.  
The President spoke today within the canvas walls of a big tent. He said in part:  
"One hundred millions of people, ninety millions between the oceans and ten millions in our ocean dependencies, constitute our population and today we are the greatest people that ever faced this country and we are today wading every man and every woman can have work if they will. When wages are the highest and individual happiness of every one averages higher than ever before."  
**BYRAN AT OAKLAND.**  
OAKLAND, Sept. 23.—William Jennings Bryan spoke this afternoon at Oakland, where he was given a warm reception by a large crowd that gave the Nebraskaan a cordial reception. Bryan was delayed in arriving from San Francisco, owing to a slight breakdown on the ferry boat.  
Colonel Bryan spoke for an hour, and followed the lines of his speeches throughout the state. He reviewed the Republican and Democratic national conventions, mentioned the Progressive convention and gave a summary of his views on President Taft, Colonel Roosevelt and Woodrow Wilson.  
Immediately after he concluded, Bryan was carried to the station where he departed for Sacramento.  
**NEW YORK REPUBLICANS.**  
SARATOGA, N. Y., Sept. 23.—U. S. Senator Eli Root was asked tonight if he would accept the nomination for governor by the Republican state convention now in session here but replied that his name must not be considered.  
The delegates tonight were still trying to find the strongest man for party standard bearer.  
After the convention had held its first session, during which Temporary Chairman William D. Guthrie of New York had sounded the keynote speech and the resolutions and permanent organization committee had been appointed adjournment was taken until tomorrow.  
**INTERVIEW WITH TAFT.**  
NEW YORK, Sept. 23.—The Evening World today publishes an interview with President Taft, in which the President goes at length into some of the issues of the campaign.  
The President promises a revision of the tariff on a scientific basis, so far as may be necessary to keep prices from being exorbitant. This may be done by the continuation of the tariff board's investigation into the facts, the President is quoted as saying.  
Taft then related an extra tariff session, in case the Republicans should be in control of the next Congress.  
Referring to the high cost of living, the President expressed the opinion that American workmen were very much better off than those of Europe, not only were they able to pay the high cost of living, he said, but they could afford to send their children to college. The Payne tariff law had no more to do with advancing the high cost of living than the latest Atlantic cable tariff, he declared.  
Referring to woman suffrage, the President said that this issue would have to be decided by the various

states and that he believed women to be as capable of wise use of the ballot as men.  
In the matter of recall of judges, the President said he regarded the maintenance of an independent judiciary as a supreme issue, and that the recall applied to judges would tend to deprive the public of judges of ability, character and a high sense of duty.  
The Republican national headquarters declared today that this interview was authentic.

SACRAMENTO, Sept. 23.—By dint of an endurance unshared by three presidential campaigns, William Jennings Bryan concluded here tonight one of the most remarkable campaign tours of California, and left for Nevada. For three days he had been covering distance with the stride of a giant in seven league boots and speaking with unflagging good nature to the never-ending demands from crowd after crowd.  
From morning until nearly morning he was on his feet, Monday incessantly in and about Los Angeles, talking indoors and out. Tuesday he opened at ten o'clock in the morning at Fresno, at ten o'clock he was talking there again, and he spoke for nearly three hours to two hundred and fifty people.  
Today he spoke again in San Francisco in the morning in Oakland twice and then once more here.  
SARATOGA, N. Y., Sept. 23.—An attack on Theodore Roosevelt and the policies of the Progressive party in national and state marked today the address of William D. Guthrie, temporary chairman, before the Republican state convention.  
"We are clearly," said Guthrie, "that the Progressive campaign is doomed to pitiful defeat and that only a paleontological desire to work injury to the Republican party continues its campaigning."  
Mr. Guthrie gave three reasons why the Republican national convention filled its duty in refusing to nominate Colonel Roosevelt.  
"In the first place," he said, "the nomination of an ex-President of the United States for a third term would have been in violation of an unwritten rule established by Washington, Jefferson and Monroe and followed ever since."  
Colonel Roosevelt, he declared had fomented more than any other man living the discontent and class hatred existing among the people. He was known, he said, to be a Socialist at heart, although protesting that he alone could save the country from socialism.  
Mr. Guthrie defined the great issues of the national campaign as follows:  
"First, the continuation of right and power of Congress to protect American industries and to preserve our present industrial system; second, the threatened overthrow of the representative system of government in state and nation by the introduction of the initiative, referendum and recall, and third, the assault upon the administration of justice in American courts."  
Almost the only reference Mr. Guthrie made to the Democratic party's candidate was in his discussion of the tariff.  
As pointed out by a Republican in Congress, although we may not be willing to face free competition with Europeans, we cannot be blind to the menace and danger of free competition with Asiatics. Just across the Pacific ocean, with constantly cheapening freight and passenger rates, are populations of fifty million in Japan, 450,000,000 in China, 300,000,000 in India, and they will furnish efficient labor at wages ranging from six to thirty cents a day for twelve hours' work on the same kind of machines at which American men and women are working. Shall we now open the floodgates? Shall we now open the floodgates? Shall we now open the floodgates? The historian who but a few years ago, in the quiet and impartial atmosphere of his study, declared to the world that 'these same Chinese were far more to be desired than most of the coarse crew that came crowding at our eastern ports.'"  
"The hatred of the courts," he said, "which the Progressives share in common with the Socialists, anarchists, and populists and that part of organized labor and labor unions typified and represented by such men as the McNamara, the Dubs and the Debs, is the truth, shamefully represent the great majority of law abiding and patriotic members of these organizations." "This forced into this campaign an unparalleled attack upon our judicial system and the administration of justice, and we regret to have to say that no man has done more to foment this hatred of the judiciary than has ex-President Roosevelt."

## GETS-IT For Corns Really a Wonder

NEW WAY, PAINLESS, SAFE AND SURE.

"Quit That! GETS-IT Will 'Get' Any Corn."  
The new kind of corn cure; the only sure kind; the only safe, painless kind. It's what corn-sufferers people have been looking for ever since the age of Moses. Does it really do the work? Well, just one trial will prove it.  
The name of this big surprise is "GETS-IT" because it gets it. You don't have to wrap your toes in band-aids. There are no plasters, no salves. What is more, "GETS-IT" will never, absolutely not, hurt or make the true flesh sore, as many other corn "things" do. If it gets on the skin, it won't, can't hurt or injure the flesh. Apply it two or three times. It's guaranteed, or your money is returned.  
Your druggist sells "GETS-IT" 25 cents per bottle, or direct if you wish, from E. Lawrence & Co., Chicago. Sold in Fresno by the San Joaquin Drug Co.

and to bring the South back into the union.  
The fourteen loyal governors who supported Lincoln in the dark days of '62, the President called heroes who did not advertise the deeds they were about to do, who made use of "bait" and "bait" saying simply, "we will see you through."  
**PROSPERITY TALK.**  
The President's speech dealt almost entirely with the confidence of the war governors, but he reserved a sentence or two for prosperity talk.  
The President left today for Denver. He expected Chairman Hill of the national committee to board his private car at Harrisburg and make the journey north to help him discuss New England politics with Republican leaders there.  
The President spoke today within the canvas walls of a big tent. He said in part:  
"One hundred millions of people, ninety millions between the oceans and ten millions in our ocean dependencies, constitute our population and today we are the greatest people that ever faced this country and we are today wading every man and every woman can have work if they will. When wages are the highest and individual happiness of every one averages higher than ever before."  
**BYRAN AT OAKLAND.**  
OAKLAND, Sept. 23.—William Jennings Bryan spoke this afternoon at Oakland, where he was given a warm reception by a large crowd that gave the Nebraskaan a cordial reception. Bryan was delayed in arriving from San Francisco, owing to a slight breakdown on the ferry boat.

## PARTIAL ECLIPSE OF MOON THIS MORNING

**WILLIAMS BAY, Wis., Sept. 23.**—Professor S. Barrett of the Yerkes observatory here today said that a partial eclipse of the moon probably would be visible tomorrow morning about 5 o'clock. "The observation will be great," said Professor Barrett. "Only about one eighth of the moon will be hidden."  
"If weather conditions are favorable an observer looking toward the west ought to get a fair view of the phenomenon."  
"In the far western portion of the country the chance to view the salient features of the eclipse will be better than in the vicinity of Chicago."

## FUEL That Gives Satisfaction

We have been selling wood and coal for many years, and have a large number of regular customers, who know that we give full weight and superior goods. They order their fuel from us every year. Nothing is too good for our customers. We make it a point to please every purchaser. If not a customer, give us a trial. Our prices are right and our delivery prompt.

## STATE CONVENTION ENDORSES NATIONAL PROGRESSIVE TICKET

(Continued From Page 1)  
cussion except for the addition of a minor amendment. The sharpest debate of the convention occurred at a public meeting of the committee on platform and resolutions last night when Senator Wolfe and Assemblyman Henry W. A. Sutherland of Fresno, Senator Charles L. F. Farnsworth of Los Angeles and Assemblyman William C. Clark of Oakland on the question of the committee's acceptance of Senator Wolfe's resolution endorsing President Taft's administration.  
A draft of the platform was prepared several days ago, and was revised last night and today, before submission to the convention by a subcommittee of the platform and resolutions committee, consisting of Assemblyman W. A. Sutherland of Fresno, Senator Charles L. F. Farnsworth of Los Angeles and Assemblyman William C. Clark of Oakland on the question of the committee's acceptance of Senator Wolfe's resolution endorsing President Taft's administration.  
One was a plank pledging the convention to support the people a proposed amendment to the constitution for the purpose of simplification of the constitution and the other was a pledge to let down the bars in the admission of medical practitioners from other states without examination. Neither subject was brought before the convention and no reasons were given for the inclusion of the two planks.  
Several minor resolutions were adopted, including a protest against the consolidation of the internal revenue offices of San Francisco and Sacramento at the former city and a recommendation that a law be passed providing state aid for indigent mothers. The latter was later included in the platform.  
**ELECTORS NAMED.**  
The nomination of candidates for presidential electors was the first order of business taken up when the convention convened today. Assemblyman Milton L. Schmitt of San Francisco offered a Taft list as a minority report and, after it had been refused adoption, Wolfe and Schmitt led a perfunctory opposition to the nomination of the Roosevelt men. The following are the Progressive electoral candidates:  
Charles S. Wheeler, San Francisco; Philip Bancroft, San Francisco; Mrs. Florence Collins Porter, Los Angeles; George C. Farnsworth, Los Angeles; Marshall Stinson, Los Angeles; Frank R. Devlin, Vallejo; Ralph W. Bull, Eureka; R. G. Farnham, Santa Barbara; John T. McLaughlin, San Francisco; M. B. Harris, Fresno; J. W. Flacey, Downsville; H. A. Lutz, San Francisco.  
The introduction of the Roosevelt-Taft resolution immediately afterward was a concession to the Taft leaders, made by the Progressive platform committee. The resolution was drafted separately from the platform in order to hold dissatisfied delegates to the last moment but, after Senator Wolfe had represented that they might be thereby deprived of the opportunity of conducting organization within the legal time limit, was agreed to, to introduce the resolution before the platform.  
**SUTHERLAND READS PLATFORM.**  
The platform which was taken up immediately after the vote of the Taft delegates was read by the Progressive platform committee. The resolution was drafted separately from the platform in order to hold dissatisfied delegates to the last moment but, after Senator Wolfe had represented that they might be thereby deprived of the opportunity of conducting organization within the legal time limit, was agreed to, to introduce the resolution before the platform.  
By the adoption of the report of the committee on organization, it was agreed that the state central committee should consist of eighty-eight members, seven from each congressional district and eleven at large. Records were taken while the congressional delegates chose their nominees, who were subsequently declared members of the committee. The committee met tonight to choose a chairman and other officers.  
Adjournment was taken after the disposal of routine of minor importance.  
**LOS ANGELES TAFTITES.**  
LOS ANGELES, Sept. 23.—The Taft branch of the Republican county central committee met today and permanently organized for the coming campaign by the selection of N. Blackstock as chairman; L. L. Loutwater, vice chairman; Oscar E. Horn, secretary and W. C. Patterson, treasurer of the meeting was enthusiastic and unanimously adopted a resolution recommending the action of the Taft delegates to the state Taft convention by "bolting" from the meeting dominated by the Progressive element.  
Acquiescence of the resolution commending the action of the Taft delegates to the state Republican convention was telegraphed to State Senator Leroy A. Wright of San Diego, a leader of the "bolters."

(Continued From Page 1)  
Jordan said tonight he would follow his plan of waiting until work of putting both sets of candidates on the November ballot, one under the designation, "Roosevelt Republicans" and the other "Taft Republicans." The Taft leaders reiterated their intention of meeting to discuss in this plan and said that they would be prepared to file a petition for a writ of prohibition in the Supreme Court, probably would be resorted to in a few days.

## Taft BOLTERS NAME ELECTORS

## BIG ENROLMENT AT NEWSPAPER COLLEGE

NEW YORK, Sept. 23.—The opening of the school of Journalism at Columbia University today found an enrollment which, according to Dr. Talbot Williams, its director, exceeded all expectations. Nearly half of the number of students were given on today, as it was declared that the registration would not be completed until the latter part of the week.  
The student body of the new school is representative of every section of the United States, indicating the widespread interest in the school. Joseph Pulitzer's gift. Nearly half of the men in the first year class are newspaper reporters of from one to four years experience. The registration in the upper classes is made up of men who have received university degrees and who desire technical newspaper training to fit themselves for journalism.

## GREATER FREEDOM IN CITY FINANCE DESIRED

BERKELEY, Sept. 23.—Amendments to the state laws to provide greater freedom in municipal finance were reported upon and accepted today by the city attorneys of the state who are attending the league of California municipalities. The attorneys held a department meeting on the state university campus.  
At the general session in the afternoon the principal issue was "municipal taxation," brought up in a resolution by Mayor J. B. Wilson of Berkeley. Mayor Wilson argued in favor of the plan.  
It was formally reported that the Panama Pacific Exposition directors had endorsed the league's proposal to hold a municipal exposition and social congress at the fair.  
Harold Farnsworth Gray, specialist in sanitation, discussed improvements in the public health administration in California before the league convention.  
Various problems of public health were considered today at the conference of state, county and municipal health officials.

## THE CONVENTION

With the action of the Republican state convention yesterday, the will of the Republican voters of California, twice expressed during the past year, as to their choice for presidential candidate, has been carried out by the regular and legal convention of that party in California. In May last, the Republicans of California declared by a majority of 70,000, that they desired Theodore Roosevelt as their candidate for President next November. An illegal convention at Chicago in June attempted to cheat them out of this right. In September, in naming their representatives to the state convention, the Republicans of this state selected delegates, who yesterday, by a vote of ten to one, nominated an electoral ticket pledged to vote for Theodore Roosevelt in the electoral college. Thirteen members of the convention, desiring the nomination of William Howard Taft, the candidate of the illegal convention at Chicago, walked out of the meeting and put up a separate ticket. No one begrudges them this right. No one objects to the proposal to have that Taft ticket upon the ballot this coming November, except certain of the Taft people themselves. These voters in this state who, whether Republicans or Democrats, desire to cast their votes for Taft, should have an opportunity to do so, and will have that opportunity unless the so-called Taft leaders take steps to prevent it. But the will of the Republican party of California, twice expressed, that California Republicanism should use its influence for Roosevelt, has been carried out by its instructed delegates. They have fulfilled their duty. The rest remains to the people themselves, at the ballot box.

But the Republican state convention of yesterday did an even more important duty than that of naming electors pledged to Theodore Roosevelt—the members agreed upon a program of legislative action that will be carried out in the legislature at Sacramento next Spring. Most conventions pass resolutions supporting measures which their members have no means of carrying out. This convention is in a position to fulfill, and will fulfill, all of its state program. It is as certain as anything politically is certain, that the next legislature will be dominated by the Progressives of California. The men who adopted the platform yesterday will be the men who will be in a majority in the legislature and will enact the laws of the next session. Their program of reforms, fitting in their nature as sequels to the Progressive legislation of the last session, will be faithfully put into effect. This convention is a noteworthy occurrence, then, as being the first instance in American politics, of a convention placing before the people a platform that is certain to be accomplished.

## CONTEMPORANEOUS

Certain of the magazines, becoming purely journalistic for the purposes of the campaign, show striking limitations as mediums of contemporary publicity. The very reason of their excellence is a bar to their being contemporaneous. Their attempt to outstrip time causes their supposed present day articles to have an ancient and fishlike smell.

For instance, in the middle of August you buy a September magazine and read a learned article that there will be no third party movement. Profound reasons will be given by an eminent publicist and as you smile you are reminded parenthetically "of course the reader must remember that this article is being written in January."

This, of course, is an exaggeration, but specific instances quite as absurd might be actually given from the pages of recent magazines. For instance, Samuel G. Bayne in the Saturday Evening Post limps haltingly behind the quick-step of political events. During the piping times of the presidential primary, he assured a waiting country that Roosevelt couldn't possibly or conceivably carry Pennsylvania, after he had triumphantly carried that state.

One takes up his favorite magazine and reads prophecies about events that have come to pass and not according to the biased prophecies. Events are fond of showing a perversity in this regard, and the wise prophet is the prophet who writes his prophecy after it has happened. Higher critics, including the lately deceased Dr. Day, assert this is the way the Book of Daniel was written. The method is commended to the magicians.

To the lasting honor of William Jennings Bryan, he it always remembered that a landing alone at Baltimore he so arranged the course of the Democratic party as to win the approval of the nation.—Herald.

## TO READ; NOT TO SEE

There are some times when it is possible, or even probable, that a book which becomes crude and nauseous when done on the stage. The philosophy of "The Grain of Dust" is of this category. Those who have read David Graham Phillips' novel and who saw the play, recognized that for the purposes of dramatization, the plot was not only been altered, but the essence of the "message" of the book had been changed. Whether the philosophy of the book is truthful or not, and whether it is pleasant or not is aside from the question. It at least was set forth by a master hand and had a consequent sincerity and a certain, albeit, treatment. To those who like to read books of this kind, the work as a book was well done, and it is regrettable that the play, in spite of the obvious attempt to "improve" the philosophy out of it, was worse than bad; it was commonplace. A ruthless sex study was turned into vulgar display of banalities, with whatever of novelty there was in the novel cut out, and with only the harshness and unpleasant situations left.

## BOHEMIA

A present day philosopher has said that Bohemia is the place where you are not; Bohemians are the people whom you are not among. This expresses sharply the writer's disappointment in the supposed joys of Bohemianism, but is not the whole truth. For there is something more to the ideal land of Bohemia than merely an unfulfilled desire.

The foundation of Bohemianism is an unrestrained longing for human society. Whether good or bad—that is a matter for personal temperament—but the Bohemian has made up his mind that there is more to humanity than to nature, more to a smile than a sunset, more in mirth and laughter and the joy of tingling nerves and bright lights, than in winds and woods, the smell of the fresh earth or of the harvest. One writes of Bohemia, but sings to humanity, and the life of Bohemia is one of song.

The joys of Bohemia are, at the best, shallow. Friendship must be deep to be of value and friendship in Bohemia is always forthright. It is not actually flippant. But to the wholesome minded man or woman, there is not something more natural about the love of humanity, the mingling with varied and even strange minds, than there is to sit in chill abandon on a mountain peak, to write a Wordsworthian stanza about what lies beyond the clouds?

The Taft delegates yesterday at the Republican state convention participated in the vote on presidential electors. According to the theory of the Fresno county bolters, this result is binding on the Taft delegates. As will be remembered, the minutes of the regular county convention were approved by resolution at the subsequent bolting convention up to the time that Roosevelt and Johnson were endorsed and Taft and Sherman repudiated.

Funny how the hoodoo number of 13 attaches to the Taftites. In the Fresno convention the walk-out of delegates and sympathizers numbered 13, and yesterday at the state convention the bolt numbered 13.

## LOS ANGELES TO GET CREDIT FOR SAN DIEGO

Tariff Collections to Be Made Hereafter by Same Office

LOS ANGELES, Sept. 25. — Tariff collections on imports through San Diego will be made by the officers of Port Los Angeles, according to notices received here today by Collector of the Port C. W. Pendleton.

This action was to be taken in carrying out a policy of retrenchment in expenses of tariff districts throughout the country.

San Francisco will collect for the port of Europe and other districts farther north will be consolidated in like manner. The giving will be considerable as one collector and his staff will be able to do what two or three have been doing, with but slightly increased expense over the budget for one.

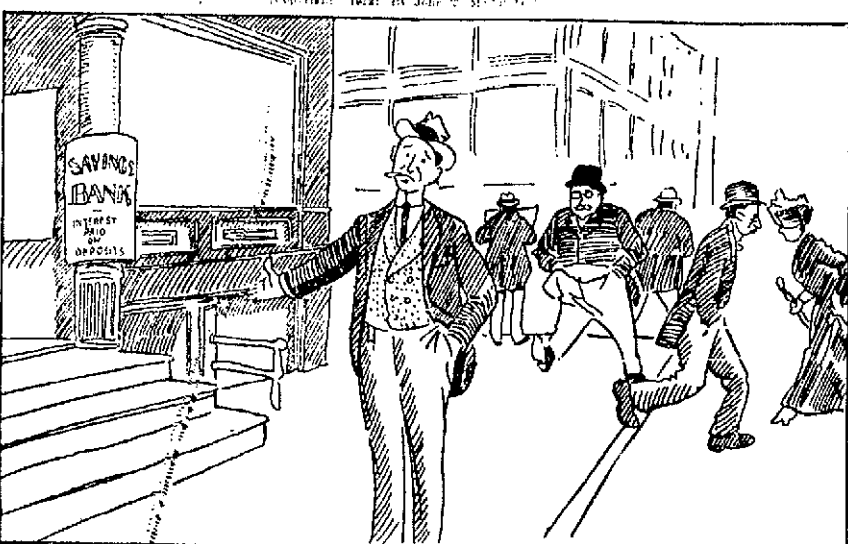

Many offices will be eliminated in the current fiscal year and more systematized results are anticipated. The organization will make Los Angeles supreme in Southern California and San Francisco in the north.

San Diego will be designated simply as a port of call under the new system and though its trade will not be restricted, Los Angeles will get the official credit for shipping as reports will be made out over the name of a local collector. Expenses will have charge of the sub-port and report directly to Collector Pendleton and his successors.

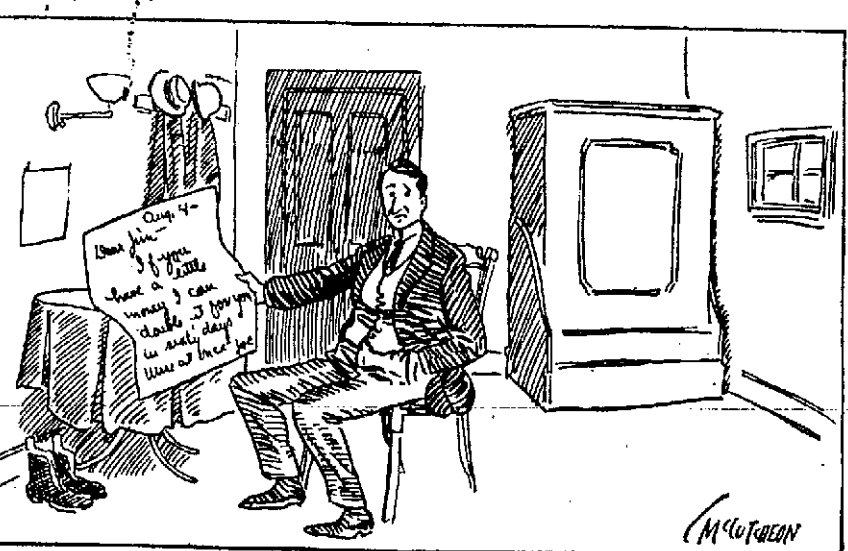

ARGUMENTS IN SUIT AGAINST A BISHOP

## A CARTOON ON THE MONEY SAVING PROPOSITION

By John T. McCutcheon.

"Now, what's the use of denying myself everything just to save a measly little ten a week. Great Scott, a man can't get rich at that rate. I'd have to save for 2,000 years before I'd have a million, and that's too slow for my taste."

Two years later—"What a blessed day I was not to have saved some money. I wish to thunder I had begun saving two years ago instead of blowing it all. I'd have had a thousand now, and instead of that, I have nothing to show for my salary but a headache and a hall bedroom."

## WHY NOT GIVE HANGING A FAIR SHOW IN CALIFORNIA?

Some of the advocates of the abolition of capital punishment declare hanging has not checked murders in California.

It has not been given a fair trial in this state. What with technicalities permitted in the courts to gag justice, and the attitude of our supreme court in sustaining and canonizing those quibbles for the protection and sanctuary of cold-blooded murderers, it is not often a guilty fiend is brought within the shadow of the gallows.

And when he is—when he stands, his hands dripping with innocent blood—only too often some man in power like Acting Governor Wallace can be found to save his worthless neck and to declare he has not had a fair show.

Great God! A fair show to a man like George Figueroa, who butchered his wife because she would not submit herself, at his orders, to his friend?

What defense could there be to such a heinous crime?

The facts were proved. A jury of intelligent men took only long enough to leave the courtroom, get into the juryroom and find pen and paper to record a verdict affixing the death penalty.

And this just sentence is commuted, because some man like Dr. M. Dumas was not the prisoner's attorney, to open for that fiend a way to a lighter sentence through legal hocus-pocus or technicalities, which the courts should hang in place of encouragement.

For the duty of the courts should be to enact justice, not to blind her while she is being betrayed.

It strikes the free The People are not being given "a fair show"—the show of the butchered are not being given in place of encouragement.

Being played with stacked cards in the interest of a heinous murderer.

What will Acting Governor Wallace do with the other murderers under sentence of death—murderers whose bloody hands cry aloud to a just God for vengeance upon their crimes—murderers—every one of them as guilty as hell itself of this murder—and yet not one of them any more guilty than the fiendish wretch whose worthless neck Acting Governor Wallace saved?

If he does not commute their sentences, he will not be treating them with the undeserved consideration he extends to Figueroa.

If he does stretch forth his hand to save their lives, he will be perpetrating an infamy against The People and against Justice—and yet no greater infamy than he perpetrated when he commuted the sentence of the fiendish Figueroa.

What have murderers in California to fear under the present condition of affairs?

Let capital punishment be given "a fair show"—and then see if it does not have a deterrent effect upon murderers.

The action of Acting Governor Wallace in this Figueroa case will be a strong argument for the citizens to vote against the plan of the sentimentalist abolition capital punishment, when that matter shall come before The People for decision.

But if he shall persist in his present course of conduct, The People would not be surprised to see California resort again to Vigilance Committees and to that organized lynching in which there is no limit to the number of men in which there was a heap of justice.

The murder of James King of William by Casey, and that of Marshal Richardson by Cora—coupled with the delays in court, the escape of criminals through technicalities, and the general belief that neither man would

which the modern world has built up, may continue unbroken. The remorseless giant affects every condition of life. We are all individually born and governed by a monster that simply demands work and effort to the last of our strength.

So we shouldn't blame the women in London, Paris, New York or Boston. Modern industry has unhinged their nerves.—Boston Globe.

Theodore Roosevelt

Roosevelt knows the cowboy and the cowboy's sister; knows university presidents and great actors; knows college men and the world's industries as well as he knows labor leaders like Gompers and Mitchell; knows all the ways of worship and field, of colored places of learning where devoted dreamers blaze the way to new realms of wisdom; knows and sympathizes with the man of the field, the garret of the crowded city, and the curbed joys. He would make life richer, citizenship worth while.

Thus it comes that he would give the plain man his opportunity; that he would unlock the possibilities of the call and give the children of all men a chance. He would control industry without killing it, prevent unhealthy speculation in natural resources, drive the political hyenas into the light, which kills them, and give us decent, human conditions, even in politics.

He wants the new party to be grounded on actual truths. Its foundations must be on economic facts, on the great rights of man. It is well that a leader so well trained in the school of experience in the antefestum who is to launch the new party. Let us write his name with that of Leif Hunt's immortal Albus—one who has led the way.

Long live the new party. Long live the new party. Long live the new party.

Long live the new party. Long live the new party. Long live the new party.

Long live the new party. Long live the new party. Long live the new party.

The Alert Circle of the First Christian church will meet Friday afternoon at 2:30 at the home of Mrs. H. Henderson.

Reuben Elliott was brought to the county jail last night by Constable Bailey to serve two months on a petty embezzlement charge.

The fire department was last night called to Anna and Brady streets and failed to locate any signs of a fire. The alarm was telephoned into the headquarters by a woman.

City Sheriff Thorsen yesterday arrested M. H. Glon on a charge of detaining an hunkieper. He is wanted in Nevada and will be turned over to an officer from Redding today.

As a result of the sidewalk sweeping, or "sweeping," in the city court yesterday morning and was released with a fine of \$5. C. C. Paulson and M. H. Glon were arrested yesterday and were held in the city jail.

One of the most serious growing crops in the city is the "sweeping" of the sidewalks. It is a growing crop and is being sold in the city. It is a growing crop and is being sold in the city. It is a growing crop and is being sold in the city.

## GROWERS ARE URGED TO READ, THEN JOIN RAISIN COMPANY

Power Is Now in Their Hands to Get Control of This Industry If They Will Act Without Hesitation; Each Asked to Do His Part

To the Growers and Business Men:—Quick, before the winter lights the fire with it. Get Monday's Republican and turn out page 8. Have you not got it? Good, now you have it away some-where until you have time to read it carefully.

First, banish all doubts and prejudices from your mind and read. Read every word, and if there is anything you don't understand, don't complain. The committee that is responsible for all there is on page 8 have every word turned into plain English. They tried their level best to get it right. To get it so that your interests are protected. Read it over again. Now, I want to tell you just how this thing stands. We are determined that you should be given the chance to control the Raisin Industry. You must take the "dog in the manger." I have "stuck out" for the growers. We have convinced those who could block the thing that they are giving up the grow-ers. They have done it. The best brains and legal talent have been put into this. "Subscription and voting trust agreement" is as near right as can be made. It is a good thing for the purpose of protecting you and the company, and we believe that it is the most vital thing that has ever been put before you. There is always a time in the affairs of men when a crisis is reached. If they act right, they are safe; if not, there may be worse trials and tribulations ahead. We have reached that turning point. We should subscribe for stock in the company and keep the control here. I said I would not "let the dog in the manger," neither can you. If you don't want the Million Dollar Company, you ought not to object if some-thing else controls it. If the grower and business men will not subscribe the stock, then, I say, let the best trust or any other bunch of men with big money form a Million Dollar company and dominate the business. They say treat us right and they may not. But what can we say about it when we had the chance and did not take it?

The other day a representative of the Tidewater and Southern Railway tried to get me to subscribe for stock. All I had to do was to give my note at seven per cent interest. They take these notes as the local bank, and the bank gives them a certificate of deposit bearing three per cent interest. These certificates of deposit are as good as cash, because the bank must pay them in cash when presented. Consequently these certificates of deposit are good "commercial paper," acceptable by the timber and steel com-panies so that construction material can be bought, and that is how the railway is financed. That is what he told me. If your notes are good enough for railway stock, why are they not just as good for stock in the Million Dollar Company? If your banker or anyone else says "no," ask him why? Believe me, if you make up your mind you are going to own some stock in the Million Dollar Company, you can do it. That is, if you do it now; but remember, there are mighty few tobacco growers who own stock in the tobacco trust. They were not given a chance; here's your chance. Get stock in the Million Dollar Company! Are you going to take it?

H. W. WRIGHTSON.  
Fowler, Sept. 23, 1912.

(The page from Monday's paper, referred to by Mr. Wrightson in the foregoing, is reproduced in this issue of the Republican.)

## PARALYZED MAN WANTS TO SEE SON

Sheriff and Police Asked to Find Elmer Hunsaker, Who Lives in This City

Stricken suddenly with a stroke of paralysis the aged father of Elmer Hunsaker of this city, is dying on the Stephens ranch near Newman. Sheriff McSwain last night received a long distance telephone message from the officers at Newman asking that Elmer Hunsaker be located in Fresno and informed of his father's serious condition.

An effort was made to locate the younger Hunsaker but it proved fruitless. The police were also informed of the case and they will make an effort to find the son of the dying man. Hunsaker is said to be working in a mill in or near the city.

## J. K. ARMSBY COMPANY IS RE-INCORPORATED

Known Now as Armsby Co. of New York; Selling Some of Its Stock

The Armsby Company of New York, is the name of the firm that has been operating in the past as the J. K. Armsby Company. The Armsby Company of New York, to take over the business and assets of the J. K. Armsby Company of Illinois.

The first action taken by the Armsby Company, after the re-incorporation, was the issuance of 500,000 worth of stock, which is now being sold in San Francisco and New York. There is some speculation as to what the money is intended for, but it is believed that the company is planning some expansion. It is estimated that the earnings of the company for the fiscal year, ending June 30, were 250,000. The stock now for sale is advertised as 7 per cent cumulative preferred stock.

## LOCAL CONCERN MAKES RECORD PURCHASE

Woodward Company Buys Fifteen Carloads of Implements

The highest purchase of implements ever made in the San Joaquin Valley was recently consummated by the Woodward Co.

The Home-States Company's factory lately changed hands and the new owners have decided to work on a new policy, that of concentrating all their business nearer home, thereby discontinuing some of the more distant branches. As a consequence, the Stockton branch has been closed and all of this stock and fixtures amounting to about fifteen carloads were purchased by the Woodward Company of Fresno.

This stock is now being shipped to the Woodward Company's place of business in Fresno as fast as it can be loaded on the cars; three or four cars being received daily.

The magnitude of this purchase has occasioned considerable speculation but it is understood that the entire stock will be placed on sale in a short time.

## BAR MEETING IS POSTPONED AGAIN

The meeting of the Fresno Bar Association, which was to have been held tomorrow night, postponed, being made in order to allow the attorneys to hear Clarence Darrow tonight, has again been postponed until Saturday night, because of another attraction, according to an announcement made yesterday.

BORN—In Fresno, 320 Mary street, September 23, 1912, to the wife of Ed. Hunt, a son.

## BRADLEY TO SHOW BIG FISH AT FAIR

One of the finest specimens of striped bass ever hooked in the waters of the San Joaquin and Kings rivers will be exhibited at the county fair next week in connection with the display of the Chamber of Commerce. The big fish was caught by James Bradley, a prominent sportsman of this city, who went to Firebaugh last Sunday on a fishing trip. The bass is not one of the largest ever caught but the size and beauty of the white stripes are out of the ordinary and will make a novel exhibit.

## GAS PIPES GOING DOWN AT H STREET

A force of thirty men started work yesterday morning putting down the sixteen-inch pipes on Tulare street, near Commercial Park, for the Pacific Gas and Electric Company. The pavement is being torn up between the Southern Pacific railroad tracks and H street on Tulare and the trenches will be dug in a few days. The gas company has enough sixteen-inch pipe here from the eastern factories to lay the main line from the gas works in Chinatown along Tulare street to O street and thence northward to the intersection of O and Fresno.

## HIGHWAYMAN HELD TO SUPERIOR COURT

The preliminary hearing of David Robertson, an ex-convict on a charge of highway robbery, as held yesterday afternoon before City Justice Graham and the defendant was held to answer to the Superior Court. He was unable to furnish bail. A. H. Landis of Caruthers, the complaining witness, testified that he met Robertson on the street and that he pulled him down a street to Tolman where he ordered him to give up his money. Robertson claims that he struck Landis because he cursed him.

## PLAY CLOSE TO LIFE AND PEOPLE ABOUT US

Chas. Milward and Ross Curry in "Bought and Paid For"—Barton Next Sunday evening.

Not since the days of "The Man of the Hour," "Paid in Full," "The East-End Way," and other really big plays of this caliber, has there been a play to the American stage such a remarkable play, such a viciously white-hot drama of contemporary New York life as George Broadhurst's play, "Bought and Paid For," now entering upon its second year at the Playhouse, New York, and which will be the attraction at the Barton next Sunday evening.

This latest New York success comes under the management of William A. Brady, the production coming direct from the Playhouse, New York, to the Pacific coast, affords one of the most interesting and out of the ordinary theatrical events of the current season, and will undoubtedly cause more discussions than any play that has ever been seen here, or at least in the last five years.

"Bought and Paid For" tells the story of the marriage between a millionaire and a telephone operator, their later separation and account of the husband's excessive drinking habits, their accompanying degradation, and the final reunion of the couple through the power of love which, coupled with the resources of a very wise and scheming brother-in-law, brings the play to a most satisfactory close.

One prominent New York critic spoke of "Bought and Paid For" as a play for "those who are married or expect to be." In this he came very near to hitting the proverbial nail on the head, for it is doubtful if any play has had a greater appeal to women, especially those who are married. This statement is borne out by the fact that those in a position to know, estimate that 250,000 women viewed this play during the presentation in New York.

There are four acts to the play, all of the scenes of the play being laid in New York at the present time, and the stage settings that Mr. Brady has provided for the piece will reveal a wealth of uncommonly elaborate scenery and magnificent draperies. The seat sale opens this morning at 9 o'clock.

## 'Pomander Walk'

Away from the rushing and bustling of today—breathing the quietness

and sweet romance of those years in the long ago—a beautiful, old-fashioned, all high and shade, all debauch and appearing in its exposed and unadorned—such is "Pomander Walk," Louis Napoleon Parker's English comedy of happiness, which comes to the Barton next Monday evening.

To the theatergoer who has become just a little weary of the problem plays, in which the veil of our corrupt social life has been ruthlessly torn aside, exposing to view an ugly picture—those who have been made depressed by the tough and lowered stories of political and financial greed—"Pomander Walk" and comes as a refreshing and April shower to the theatergoer. "Pomander Walk" has been called a classic, and in fact it does excite an atmosphere that will remind the auditor of some of the best of Thackeray's stories. Every stage character is a round old photograph, and the stage setting is so accurate that it calls to mind photographs of bits of old English society, and to those who have been in rural England it is like a memory of some pretty nook or corner of the country. The author has for local color a pretty good command of the English language. The title "Pomander Walk" is a reference to the old custom of the king of the Thames, in the Pomander Walk, and is where the three acts of the play take place. The period is 1865, during the later years of the reign of George III.

Two years ago "Pomander Walk" was produced at Wallack's theater, New York. All of the players in the cast are English as players of no other nationality could adequately portray the delicate flavor of the play. The attention is drawn to the character of the Lord, the play's hero. The seat sale opens this morning at 9 o'clock.

## MUSICAL SHOW AGAIN GETS GREAT OVATIONS

The Little Musical Comedy Company at Teat's put over a big hit in their change of show last night in the "Bell of Arcadia." It is safe to say that the immense crowd of people are still laughing yet at the funny comedians. This company is headed by the best of the big favorites than the Armstrong show was, the chorus work being superior to any work ever seen in this line.

Bill and Oaslow act so well together that they remind you of Dillan and King and it is hard to tell which is the funnier.

The lady principals acquitted themselves in a most artistic manner last night. Miss Ruby Lang sang beautifully and look a big encore with her duet with Mr. Clair.

Pretty Hazel Belmont was better than ever in this. Too much credit cannot be given Miss Jean Belmont for it is this little Miss that directs all the dancing numbers.

Friday night will be the first Chorus Girl Contest and an immense house will no doubt be seen at both shows. The boys are in line at the stage and dancers ever seen here and it is safe to say they will become great favorites.

## AUTOMOBILE CARNIVAL LAST NIGHT OF FAIR

Free Vaudeville Entertainment to Be Evening Midway Features

The directors of the Fresno County Fair are planning to have something doing every night during the five days of the county fair this year. Besides having the largest fair in every way, it is to have the evening features made more prominent than ever before.

Tuesday night, the opening night of the fair, has not yet been planned for. On Wednesday night there will be fireworks, better fireworks than have ever before been shown in Fresno. Thursday night will be the big Horse Show with the fancy riding and driving in connection with it. On Friday there will be more fireworks, but entirely different from those of Wednesday night.

Saturday night, the closing night of the fair, there will be a big automobile carnival. It is something new for Fresno. The night is very appropriately chosen as it will be just after the big races that are attracting so much attention and which are expected to draw so many outside cars, as they are to be held under the rules of the American Automobile Association and none but licensed drivers are to participate.

TO BE SOCIETY EVENT. It will be in the nature of a society event. There will be hundreds of automobiles parading about all handsomely decorated. Electric lights, Chinese lanterns, and other illuminating effects will give it the beauty of a water carnival.

It is expected that Saturday night's entertainment will call out greater crowds than ever. The many automobiles of countless makes that will parade about the track and grounds will make an inspiring spectacle that will prove very attractive.

There will be free vaudeville acts every night in the midway. These acts will be high class and will come in groups according to this feature, one without which no fair could be a success. There will be a large number of attractions in the midway this year.

Mrs. Gull and her horses have already arrived and the other members of the San Francisco Riding and Driving Club will arrive in a few days, probably Sunday.

Both Mr. Pulliam and Mr. DeKens, secretary and president, respectively of the Agricultural Association, are enthusiastic in their declarations that the Fresno County Fair of this year will be greater than any previous one.

Just what is being done in the midway is being done by other of them as Mr. John Zapp has sole charge of the midway and is out of town in the interests of the fair. However, he has stated that he is positive with much success and that the midway will be not so much greater this year as the rest of the fair is.

The committee in charge of the automobile races are also positive with much success and say they will have many surprises to offer.

DITCHES RIVER IMPROVEMENT. MEMPHIS, Tenn., Sept. 25.—Advocates of joint control of the Mississippi river system, by the state and the federal government and those who favor the national government, after a long and bitter battle, have today secured the approval of the New York bill pending in Congress which provides for a general scheme of reclamation.

## "RIP VAN WINKLE" AND "MAN'S GENESIS"

Fine Pictures Interest Both Young and Old at Fresno.

Photo Theater

Rip Van Winkle. From Van Winkle, Rip Van Winkle, and his famous crew, known to be forgotten men—old time, and much more that is calculated to stir the memories of forgotten days, are at the Fresno Photo Theater today. And why? Because today your hearts, our old friend of childhood days, Rip Van Winkle, has returned with his kindly and genial spirit—and, let us not forget the long white flowing whiskers.

There is a charm and grace, and a certain softness about this portrayal of a man of quick and rest to the spectator, particularly that home scene at the end when the organ peals forth to the strains of Home, Sweet Home. The music by this way, is very delightful, opening on a typical American-Dutch scene with an appropriate Dutch ballad that one easily recognizes, then slipping into a fast and furious thunderstorm accompanied by the rain and the waters in the rapids. The entire scene of Rip Van Winkle and his queer crew of dwarfs are excellently done. The entire portrayal is a decidedly worth while one—a welcome and earnest play that should not be missed.

MAN'S GENESIS. TREMENDOUS CONTRAST. Man's Genesis is a powerful conception—a real Darwinian thought. To anyone this drama ought to prove a real lesson—the power of brains over matter. Back we fly to the prehistoric

days, when men were like apes, to the days when the first ruled. It doesn't seem possible that anyone but the thought players could get a thing like this from over the screen. The whole piece is marvelously executed, so tremendously powerful as to give one the creeps almost, unless intelligently approached. Man's Genesis will undoubtedly go down into photoplay history as a masterpiece of its kind.

PHOTOPLAYS. The way the modern photoplay theater carries one from one mood to another, is something new—almost uncanny. Take the above two, then slip into a travelogue to Europe of modern days, and you almost have to rub your eyes when brought back face to face with the events of our own latter days. Next beautiful Ruth Roland appears upon the screen in a refreshing comedy, when lo and behold! back we are flashed to a California wild and woolly drama. This picture will give anyone the shivers, for here we have a huge body swaying. Suddenly the horse's creature lurches forward, its black forked tongue strikes deep into the calf of a poor Indian squaw. How it is done, I do not pretend to know—but, it certainly made me hold on tight. Surely, modern cinematography can give one more thrills, delights and thought-producing events in one afternoon than any of the new-fangled inventions that have ever been offered to us poor harassed mortals.

## CAN TRAVEL WITH FEELING OF EASE

Many Things to Be Learned From Republican Book

It will soon be possible for persons who travel by rail to feel a greater degree of safety than they have known heretofore. For years those who travel by water have been able to feel that the steamboat inspection service stood between them and defective boilers, and that they did not incur much risk of being blown into eternity by a boiler explosion. But with the railroads it has been different. They could operate any kind of locomotive and no one would say nay to them. As a result many inferior locomotives were put into commission, and many that once were good, were run along after the danger point was reached. The large number of boiler explosions that resulted demonstrated to the Interstate Commerce Commission the danger of allowing locomotives to go on forever in this way so it urged Congress to pass a boiler inspection act. This has been done. The country is laid off into inspection districts, each with an inspector, with the whole matter in charge of a chief inspector appointed by the United States.

When the inspection service gets into full operation every locomotive which leaves the shop will be built according to standard specifications as to boiler strength, and when those in use deteriorate to a certain point they must go to the scrap heap. There is a rule which requires locomotives to be equipped with ash pans, to prevent the scattering of fire. The work of the Block Signal and Train Control Board promises ultimately to result in a national law requiring railroads to adopt automatic block signals and train controls just as they have been required to adopt the air brake and the safety coupler.

The most complete store of the work of the Interstate Commerce Commission is that which appears in the new book, "The American Government," by Frederick J. Haskin. Every other branch of the government service is also described in this volume. If you secure a copy you will feel under obligations to The Republican for giving it to you at cost. See coupon on page 17.

## MARRIAGE LICENSES

Tony Silva, aged 33, and Emily Bettemann, aged 18, both of Fresno.

## KANSAS FIELDS HAVE AGAIN COME TO LIFE

### High Prices Causes Drilling to Start in Three Fields in State

INDEPENDENCE, Kan., Sept. 25.—The Kansas oil fields are undergoing a renaissance. After a long period of stagnation they are experiencing a new life. The boom of Standard oil has been lifted and the gun once again shines through the hills and valleys which formerly were dotted with derricks. Once more the sort of the engine and the clank of the stackle and the hum of the pump will be heard, but it will never be what it once was. The old days are gone forever.

**WHEN BOOM WAS AT HEIGHT.**  
Seven or eight years ago, when the price of crude oil was as high as \$1.35 a barrel, the Kansas oil fields were thriving. Independence, Neodesha, Peru and Bartlesville could hardly find accommodations for visitors. A few miles out of Chanute was a forest of derricks. Neodesha was surrounded with them. There was scarcely a lot which had not on it an oil well. Independence was the central supply depot for the field and great piles of pipe lined the railway.

That was in the era of high prices, when the oil purchasing agency wanted the country developed. It and by it had more oil offered than it wanted and began to cut prices, then the independent buyers and refiners got into the field. A fight began which became political and was taken into the state legislature. Restrictive laws were passed aimed at the Standard, producers lined up into "S. O." and

## PIPE LINE BUILDERS MAKING MILE A DAY

### Work on Big Line to San Pedro to Be Finished by February

STANDARD BROKE THE FIELD. Light and heavy oil divisions were established and the independents said that a third of the Standard would have light oil in one side of a road and on the other an anti-standard man would have only heavy oil. In retaliation for adverse legislation the Standard peacefully quit buying in the Kansas field and company after company went to the wall. Oil slumped as low as twenty-six cents. Profitable holdings were abandoned.

That condition continued until a little more than a year ago when the price of crude oil began to advance slowly. The Standard's purchasing agency began to take all Kansas oil offered. Now the Standard oil company is paying 25 cents and on occasion is looking for a further advance. There is not an idle rig in Montgomery County, where much of the territory is being re-oiled old wells, long abandoned, are being cleaned and put on the pump, and new territory is being based. In the field around Chanute drilling has been going forward steadily for a year or more. Good wells are being developed in the Chanute field. The old field just north and east of Chanute is being revived. The Patton field, southwest of Independence is being drilled again.

Indications are that all over Chanute, Montgomery, Wilson and Neodesha counties will be found good pools. They will be good five, eight, ten and fifteen barrel wells which will pay good interest on the investment. The Kansas oil field is coming into its own again.

Mrs. A. E. Board, have taken over the Tea and Coffee business situated at 911 J St. I will not be responsible for any debts incurred by the late owner Mr. W. D. Dishner & Son.

**YOUR DANDRUFF LOOKS BAD.**  
One application of Smith's Dandruff Pomade stops itching scalp, three to six removes all dandruff. For sale by leading druggists everywhere.

## W. J. Brown Meets Friends and Forgets to Answer for Selling Liquor

### FAILS TO APPEAR IN COURT; JAILED

Because he failed to put in an appearance in City Justice's court Monday and answer to a charge of selling the White Rock option of selling liquor in a case-lawyer, W. J. Brown, in the employ of George Hough, who conducts a store and hotel at Meadows, near Shavert, was placed under arrest yesterday by Deputy Sheriff Thompson. Brown will be taken into court today.

When the officers in the Sheriff's office recently conducted a raid on the Meadows resort, Brown was among those arrested and cited to appear in court. The officers did not care to put the men to any disadvantage by taking them in and the arrested men promised to appear in court. Brown is said to have come to Fresno Monday last and friends and forgot his engagement. Sheriff Meadows gave orders that he should be arrested on sight.

Thomas Ockenden, proprietor of Ockenden's resort, will appear in court Saturday to answer to a charge of violating the county "dry" law by keeping a supply of liquor on hand in a public place.

## FIRE CHIEF IS PARTY IN SUIT FOR DAMAGES

### Thomas Ward Sues for \$500 on Account of Auto Collision

Fire Chief J. G. Whittemore was made a defendant yesterday with J. V. Hayston and W. R. Zibbell, the horseman in an action by Thomas Ward, a rancher, for \$500 damages, because of a collision between automobiles causing a runaway on the forenoon of the 11th last at Kern and M streets. Hayston was a chauffeur in the employ of Zibbell and the chief were traveling in different directions in autos and to move out of each other's way crowded in upon the farmer's horse attached to a light spring wagon at the street curb. Ward asks for damages because the horse was maimed in the runaway, because it has permanently acquired the runaway habit, also for the breaking up of the wagon and lastly because of his loss on account of the inability to employ horse and wagon in travel to and from town while harvesting a crop of peaches in an orchard 9 miles southwest of town.

## DEVELOPMENT NOTES OF MIDWAY FIELD

TAFT, Sept. 25.—The No. 3 well of the Nags Oil Company, on section 30, 31-23, was cemented Saturday by W. F. Scott of Taft at a depth of 2843 feet.

A decided effort is being made to put the No. 1 well of the Rex Midway Oil Company, on section 8, 31-23, on the producing list. The well is an old one and because of miscellaneous troubles has been placed on the idle list several times. The last drilling operations were stopped at a depth of 3500 feet after some good oil had been had. It is believed by the drillers that by going back a few hundred feet and cementing off the well can be brought in an oil producer. Because of this the casing was shot off Monday at a depth of 3225 feet, the shot being put by Emmet McMahon for Allison and Berry.

With plans laid to re-drill the No. 1 well on section 22-12-23, in the Sunset field, the California Amalgamated Oil Company has shot off its 8-inch casing at a depth of 3100 feet. Dynamite was used in the shot being placed by Allison and Berry. The six inch which is left in the hole below that depth is to be sidetracked and re-drilled standard oil. This is better known as the old Pan-American lease.

The Jastro Oil Company has contracted with the fields dynamiters to shoot off the 8-inch pipe in its new well at a depth of 590 feet that the pipe below may be sidetracked and the hole re-drilled.

Superintendent Shaw, of the El Camino Oil Company, in the Sunset field, on section 10, 11-23, has landed the 6-inch casing in his new well at a depth of 2800 feet. He is now arranging to put in the 4-1/2 to the oil sand.

The General Petroleum Company, whose main troubles on section 6, 12-23 has been water in the oil is now arranging to install a "Trumble" Topping Plant that the water and emulsion may be removed.

Contractor John Edwards who is putting down a well for the General Petroleum Company on the above property is in the sand and plans to finish it up within another week.

## OIL NOTES FROM COALINGA FIELD

COALINGA, Sept. 25.—The Kern Trading and Oil Company, section 21, 18-15, well No. 9 is to be drilled to test the lower sands. It is estimated that at about 1500 feet a light oil sand will be developed. The five wells on this property (the Old El Capitlan) are producing about 500 barrels of oil as they did three years ago. The wells have had good care and show what can be done with old wells in that neck of the woods. The oil is 17-2 gravity.

The Associated Pipe Lines Company is carrying full capacity through its lines to Port Costa and has found it necessary to draw from the Alamo in the big reservoirs on section 9, 20-15, to fill orders. The various pipe lines are doing about all the transportation from this oil field today. The railroad runs out about twenty cars per month from Ora Station for Goshen and Fresno.

## WANTED

Furnished room, modern conveniences, in private family, within easy walking distance to business section North end of city preferred. References exchanged. F. P. McCREA, P. O. Box 714. Phone 1184.

## OFFICERS TO STUDY CITY ORDINANCES

Fresno patrolmen were yesterday handed books containing the city ordinances in a "tour shell" and were advised by the chief of police to familiarize themselves with the various ordinances many of which are not enforced. The chief of police called attention to the traffic ordinance and asked the officers to see that all automobiles must close their doors Saturday at midnight and not sell liquor until Monday morning at 6 o'clock. All pool halls and places of amusement must close their doors at midnight.

## MESSANGER BOY HAS CHAUFFEUR JAILED

Upon complaint of Joe Smith, a postal messenger boy, D. Cherry, a chauffeur, was arrested yesterday afternoon by Police Detective Goshen and cited to appear in police court this morning and answer to a charge of violating the traffic ordinance by turning the corner on the left side of the street. The issuing of the warrant was the result of an accident in which Smith and Cherry were injured yesterday morning. The fact claims that as the result of Cherry's rounding the corner of O and Tulare streets on the left side he was knocked from his bicycle and the bike damaged to the extent of \$2.50.

## By Buying These Shoes You Secure the Latest Styles At the Very Lowest Prices

## It Is An Opportunity to Buy the Best At Saving Prices

You can wear the latest styles of shoes and buy them at prices that will save you money. When Mr. Mittenhal was in the East he visited the factories and bought the latest styles direct at prices that are less than other dealers must pay. He secured some exceptional bargains, and we are listing just a few of them here for you to judge what you can save by buying now. They are stylish, durable, guaranteed, and very low in price.

You can't find bargains like these elsewhere. It's money saved to buy where prices are so low and quality so high.

Women's \$3.50 Tan Calf Shoes at

\$2.45

Growing Girls' \$2.50 School Shoes Now

\$1.95

Genuine Russian calf skin of a very high quality is used in these hand-made and stylish shoes giving them great value. They have the short vamp that give the foot the appearance of being much smaller than it really is. The high toe lasts and the extension soles that are an unusual good bargain.

Women's \$3.50 Silk Velvet Shoes at

\$2.45

Misses' \$2.00 School Shoes \$1.35

Men's \$3.50 Dress Shoes \$2.45

Silk velvet of a grade better than is ordinarily used gives these shoes durability. The short stage vamps give them a trimness that is very pleasing and the flexible soles make them very comfortable. Throughout these shoes will be found to be of highest value and will give satisfaction. At this price they mean quite a saving.

Women's \$3.50 Fancy Top Shoes

\$2.95

Boys' \$2.00 School Shoes \$1.35

The vamps of these shoes are made either from tan calf, gun metal, or patent kid. The tops are very pretty, being either mixed color or tan. With extension soles, short vamps and high toe lasts, these are unusually pretty shoes.

Shoes with fancy tops are the latest fall and are particularly pretty with the new fall suits. Be sure to see these shoes with the fancy tops.

Heavy gun metal calf skin is used in these shoes, giving them a durability that makes them the most economical shoes to buy. They are cut in blucher style with extension soles and are solid leather throughout.

Children's \$1.50 Fancy Tops 95c

They are very pretty shoes, made with patent kid vamps and dull black calf, blue, brown or red kid tops. They are in button or lace styles, with hand turned soles. Sizes 2 to 5 1-2.

## ITALIAN IS INJURED BY HIS OWN SHOTGUN

### Maderan Has Large Hole Torn in His Shoulder; Will Recover

MADERA, Sept. 25.—Augusto Tolle, an Italian, was the victim of an accidental shooting this morning, in which his own gun was discharged and a large hole torn in his right shoulder, nearly as large as a man's fist.

Tolle was driving a mule hitched to a cart and had a shot in his side the stock of the gun resting in the bottom of the cart. When one of the old osborn place he leaned forward to light his pipe, and the action seemed to startle the mule, for it jumped, and in controlling the animal Tolle picked the gun causing its discharge. The load entered his right shoulder, tearing the flesh frightfully, but fortunately missing a vital part, and breaking no bones.

After the accident he drove a mile down the road to the A. L. Scott ranch, where he was taken care of until the arrival of Dr. Hanson, who was summoned to dress the wound. The shot tore the flesh all around an artery without severing it.

## HANFORD WILL VOTE ON BIG BOND ISSUE

HANFORD, Sept. 25.—On October 7, the voters of Hanford will express themselves on a special election upon two important questions, one being whether or not they will incur a bonded indebtedness of \$50,000 for the purpose of extending the present sewer system, building new main lines, and constructing a disposal plant at the sewer farm, and the other being a bond proposition calling for their decision as to whether or not the city shall bond itself to the extent of \$100,000 for the main extension in the outlying and hitherto poorly protected portions of the city.

## PORTERVILLE HAS LARGE ENROLLMENT

Leads Schools of Tulare County in Point of Attendance With 275 Pupils: Visalia Second

PORTERVILLE, Sept. 25.—According to figures which have been given out from the various towns this week Porterville this year takes first rank in Tulare county as to high school attendance and ranks easily the head of the schools of this district with an attendance of about 275 pupils. Visalia, always the leader until this year, is second with an attendance of 216, while Tulare is third, formerly a close second to Visalia, and Lindsay is fourth.

Porterville took first rank over Visalia on a basis of not average daily attendance, but the board of that city explained this by the statement that the fire which destroyed the Visalia high school building late in the year seriously interfered with the attendance record. This year, however, all the schools started even and Porterville leads the list. There are at least 25 more students who will enroll as soon as the new buildings are completed and room provided.

## FOR RENT

Modern five room dwelling in good condition on 2nd street, four blocks north of Mariposa Street. Rent reasonable. Apply at once to FIERCE & ANDERSON

## Tools for All Trades

# Fresno Y. M. C. A. Activities for Fall and Winter Planned

An elaborate opening reception on October 7th will inaugurate the fall and winter work of the Fresno Young Men's Christian Association, which will embrace a range of activities never attempted heretofore by the local association.

Special emphasis is to be laid this year on the numerous Bible study classes in the Y. M. C. A., and it is

hoped to develop a great deal of interest in the work. The physical department will follow somewhat the same lines as last year, though several innovations in the way of corrective muscular exercises will probably be inaugurated by the new director of this department, Harry Franks. Apparatus work will not be given quite as much attention as formerly, but more time

will be devoted to gymnastic exercises and recreational sports.

A new entertainment course is to be planned by the association, for the numbers of which must be recruited from all over the state. There will be a series of lectures and musical entertainments in the course, and each member of the association will be presented with a free ticket for the season, admitting himself and a friend to the entertainments.

Special receptions are to be planned throughout the year to certain causes of the society, such as the high school students, the young people's association, the union labor men, etc., of this city.

There will be an attempt made to organize a Spanish class, a class in poultry raising, an English class for foreign-speaking peoples, and a class in watermanship in its various forms.

**PRACTICAL LECTURES.** Practical lectures and talks by business men will be featured through the fall and winter season by the association, and men of prominence in the state will be secured to address the men.

The reading room of the Y. M. C. A. is to be made more attractive than before. Several more periodicals will probably be added to the present ample supply. There are now sixty-three periodicals on the shelves in the reading room of the association.

In all, the Y. M. C. A. during the year 1912-13 will present many new features and will more fully enrich itself in the civic life of this city.

Monday evening, October 1, is the date set for the big opening reception when the people of Fresno may visit and inspect "their" building. The reception was to have been held the first week in October, but out of consideration of the Fresno county fair was postponed.

**OPENING RECEPTION.** The building will be thrown open from 6 o'clock to 9 o'clock on this time, and an inspection of the reading room, gymnasium, billiard and pool rooms, showers, etc., is invited. The reception will be under the direction of a general reception committee of which Carl Lieberich is chairman. A ladies' committee will aid in the reception.

A feature of the evening will be a special program which will be given in the gymnasium under the direction of Harry Franks, the physical director. The leaders of the classes and their helpers will demonstrate the various games and contests which may be played in the gymnasium. This will include basketball, volleyball, baseball, handball and several new games. Picked teams of the association boys will participate in the games. It is probable that the leaders' class will demonstrate the chess work for the benefit of the many visitors.

The Mandolin Club will play in the lobby throughout the evening, and the rooms will be delightfully decorated with ferns and potted plants. Refreshments will be served the visitors.

Thursday evening, October 10, the students of Health Business College will be tendered a reception by the Y. M. C. A. The building will be thrown open for inspection and an informal program will be given during the evening under the auspices of the H. B. C. Club of the Y. M. C. A. Refreshments will be served.

Sunday, October 13, has been set aside as Bible Day in the association. At this time A. G. Thomas, of the largest Bible school on the Pacific coast, in Los Angeles, will be the speaker and will address the students.

**BIBLE CLASS BANQUET.** Monday, October 14, will be the night of the big Bible class banquet, which last year was attended by over 200 men and high school boys. The dinner will be served at 6:30 in the dining room at the association and will be followed by a period of speech-making at which time the work which is to be presented during the ensuing year is to be outlined and new policies discussed. An opportunity will be given the new members to enroll at this time.

A strong feature of the Y. M. C. A. work this year is to be the Bible classes and discussion clubs. The following classes of older men and young men are included in the Bible study work of the association:

Head's Bible Class—Conducted by L. T. Lewis, instructor.

Long Table Discussion Club—Conducted by E. W. Lindsay.

Young Men's Bible Class—Conducted by R. C. Avery.

Mission Study Class—Conducted by Rev. Thomas T. Griffin of the First Presbyterian church.

P. X. Bible Class—Conducted by Judge H. Z. Austin and others.

Business Men's Bible Class—Conducted by E. W. Lindsay.

Teachers' Class—Probably conducted by Rev. Shirlie Shaw, associate pastor of the First Presbyterian church.

Chinese Bible Class—Conducted outside of the building by General Secretary Walter D. Eastman.

Correspondence Class—Studies in life of Christ, conducted by mail by Walter D. Eastman.

The preparatory boys will have two

classes in Bible study, one of which will be under Rev. Shirlie Shaw. The teacher for the second class has not been determined upon.

The Juniors are to have three Bible classes under the direction of Arthur C. Franks, office secretary. L. T. Lewis, boys' work director, and Harry Franks, physical director.

## ANNUAL BOARD ELECTION

The annual dinner and election of officers of the Fresno Young Men's Christian Association is scheduled for Monday evening, October 25. All the members are invited to be present at this time, when the board of directors is to be elected for the ensuing year.

This is the most important event of the year in Y. M. C. A. circles. A splendid banquet will be served at 8:30 in the gymnasium of the association. At this affair last year over 200 sat down to the feast.

The gymnasium classes will be opened on various dates. The classes for preparatory boys will begin next Saturday, but the seniors will not begin their work until Tuesday evening, October 8. The date for the Junior opening has not been set.

The address by Dr. C. J. Woodson in the Court House Park next Sunday on "The Measure of a Man" will be the last of the summer park services of the Young Men's Christian Association.

## SUNDAY MEETINGS

Sunday, October 6, will see the opening of the social Sunday afternoon program in the Association building. L. S. Jones of Los Angeles, assistant state secretary of the Y. M. C. A., will be the speaker at that time.

The remainder of the Sunday meetings in October will be conducted by Sam H. Jacks, former associate secretary of the San Francisco Y. M. C. A., who will give a connected series of talks.

The Sunday sessions will be from 4 to 5 o'clock; from 5 to 5:15 will be devoted to a social period, from 5:15 to 6:15 will be occupied by the fellowship hour, and the long evening sessions under the direction of E. W. Lindsay.

The annual meetings and elections of officers for all the clubs of the Y. M. C. A. will be held during the next two weeks. The clubs which will hold such sessions will be the Wireles Club, the Dormitory Club, the Mandolin Club, the Wranglers' Club and the Glee Club.

To Walter D. Eastman, general secretary of the Fresno association, is due the credit for the splendid offerings of the local association to the young men of this city during the fall and winter. Mr. Eastman has spent the summer in planning the fall activities, and announced the final schedule as far as prepared yesterday.

## POLICE JUDGE BRIGGS DISPOSES OF CASES

Police Judge Briggs yesterday morning heard the end of about twenty men, charged with petty crimes, and gave all releases with the exception of William Kelly and J. Aranda. Kelly is a one-armed beggar who escaped from Patrolman Emms, but was captured after a short chase. He was given thirty days in jail and Aranda was sentenced to pay a fine of \$10 for carrying a concealed weapon. M. C. Kelly and William Allen, youths picked up in Christown on suspicion that they might be the safe crackers who attempted to blow the Kohler Steam Laundry safe, pleaded guilty to charges of vagrancy and were released. The arresting officers warned that they were in no way connected with the attempted safe cracking.

## FIFTEEN MOROS KILLED BY POSSE

MANTLA, Sept. 25.—A band of Moros who killed a Filipino was pursued by a detachment of constabulary. A hand-to-hand encounter ensued in which fifteen Moros were killed. Lieutenant Preuss who was associated with W. Morgan Shuster in Persia, and four men of the constabulary were wounded.

## SELLING AGENT CAN IMPROVE CONDITIONS

Growers Are Urged to Get as Close to Consumer as Possible

Editor Republican: Competition in selling is the ruin of the producer. The packers are competing among themselves and the grower is the loser. This is the psychological moment to get rid of this competition.

Nothing is needed but an awakening of the grower to the situation, and selling direct.

Our present plan of selling has proven itself inadequate and ruinous. Let us not stay by it. If the orange and apple and walnut growers should attempt to sell as we do, they would go broke. Let us do as they do. Have our selling agency, and no cut throat competition. Let us get as close as possible to the consumer, and let us do it quickly, without hurting the jobbing business.

The jobbing business is delightful if the grower can get 4 cents for all his raisins. If the jobbers insist on buying for less than cost of production, let us have our own selling agency. Let us look at the wine industry to realize what competition in selling has done to it.

The Independents organized to fight the trust for the market and the grower has to sell his grapes for cost of picking and handling.

Ifed wine is extremely scarce with the trust. This country produces the greatest amount of port wine grapes. All these grapes are needed to supply the wine for immediate demand. Yet the grower is forced to sell them for half the cost of production.

The wheries which buy them even at this low price may lose money. The fight for the market may reduce the selling price of wine to the cost of barrels and freight. I have known wine to be sold in big lots for three cents a gallon in New Orleans during the last fight between growers and the trust. The trust then to my certain knowledge, had no more to sell, yet it forced the growers' combine to sacrifice its wine by making low quotations, and in some cases buying it in through friendly houses to supply its own trade.

Let us do something to prevent such happenings, while we can. I know a market for every pound of our surplus raisins, no matter if raised on or not. Every dried grape will sell for more than anybody can realize under present conditions. We do not want a selling agency to operate in opposition to the packer. We may not be able to get the growers together before Saturday, but then we will see what can be done.

QEO. H. WALTER.

One cup of macaroni; break in pieces two inches long; cook twenty minutes in a little salt and water; grease a small dish, put in two cups tomatoes, a little salt and pepper, a little cheese, cut fine add layers of bread crumbs and macaroni until dish is full; put butter on top.—Woman's World for October.

## DO NOT SUFFER FROM ECZEMA!

All skin troubles are due to parasites and bacteria breeding and festering under the skin. Kuru, the new scientific remedy absolutely exterminates the germ.

The free bottle will prove it.

## Clears Stuffed Up Head and Catarrh Disappears

Breathe the Healing Air of the Eucalyptus Forests of Australia and Quickly Get Rid of Catarrh.

Hyomel will banish catarrh if you charge of obnoxious mucus will cease to breathe it a few times a day. It is the only remedy of its kind before the people that can penetrate into every nook, corner, fold or crevice of the mucous membrane and destroy the mucus.

HYOMEL is squeezed from the green leaves of the Eucalyptus trees of Australia, where catarrh does not exist, and combined with Listerian antiseptics. Pour a few drops into the nostrils and breathe the mighty germ destroying air; an air more healing than that of the pine covered Adirondacks.

Nature how quickly that stuffed up head clears, keep at it a few days and you will breathe the purest air in your suffering and hacking and distress comes in a few minutes.

## All Sores Are Not Cancerous

While all Old Sores are not cancerous in their nature, every slow healing ulcer shows a degenerated condition of the blood. Virulent impurities in the circulation produce angry, discharging ulcers, while milder and more inert germs are usually manifested in the form of indolent sores or dry, scabby places. Efforts to heal an old sore with external applications always result in failure because such treatment does not reach the blood. S. S. S. heals old sores of every nature by purifying the blood. It goes to the fountain-head of the trouble and drives out the germ-producing poisons and morbid impurities which prevent the place from healing. Then a stream of rich, nourishing blood, which S. S. S. creates, causes a perfect and natural knitting together of all flesh fibres, making a thorough and permanent cure. The sore does not "come back" when S. S. S. has made a cure, because its source has been destroyed. Book on sores and ulcers and medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## You Are Using More Light---Expect Higher Bills.

SCHOOL is now in full swing and the children are required to do a great deal of work at home. They will need good strong light to work by and one that is as nearly like daylight as possible. Consequently, as you burn more electricity your meter will register faster, and your bills will be higher.

We take this method of explaining to you why you can expect a raise in your light bill. It is not because the rate has been increased or that your meter needs repairing. When you turn on more light you consume more electricity and it is all registered mechanically by your meter.

"Joaquin Service" is dependable.

**I Need \$20,000**

## I Want to Tell You Today About the Kind of People Who Will Live at Calwa

Lots \$250 Up  
10% Down  
\$15 a Month

**CALWA**

Lots \$250 Up  
10% Down  
\$15 a Month

I have told you many things about Calwa. I have told you about its advantages as a place of investment, as a place of residence, as a manufacturing and shipping center, etc.

Now I want to tell you something about the people that will live there, particularly the people who will live there first. I want to show you how Calwa is bound to be a prosperous community because prosperous people live there.

The railroad is now making preparations to occupy the new quarters. The buildings are rapidly nearing completion. When the Santa Fe company changes the division from Fresno to Calwa, 256 men will be employed in the new city, 236 well paid men.

Most of these men will make their homes at Calwa because they will wish to be near their work. Many of them are men with families. Already many of them have bought lots and are preparing to build. It means a big population for Calwa from the very first, a population of men who are better paid than the average.

The coming of these men and their families to Calwa will of course create many business opportunities. A number of alert men have anticipated this and are building stores. Business houses will spring up rapidly in Calwa very soon.

The point I want to make is this: When you come to Calwa to live or when you buy lots here, you are in a community of prosperous, busy people.

The merchant who begins business in Calwa is laying the foundation for a steady income. He will deal with well paid people who will pay their bills promptly, people who have a regular and stated income. It means success to enter business in Calwa.

These men will build good homes because they can afford them. Calwa will be a city of happy, contented people and property values will advance steadily. Now is the time to buy lots, now before the real advance in values has begun. Even now buyers want much more than they paid; values have already increased considerably.

## RAILROAD COMMISSION OF STATE SAVES \$492 PER DAY TO USERS OF TELEPHONE BETWEEN S. F. AND TRANS-BAY POINTS

That the regulation of public utilities by the state through the agency of the railroad commission, brings direct and positive benefit to the people, is clearly established in a concrete case now under review.

The railroad commission assumed its larger powers on March 21 of this year. Within two months a preliminary study of the general situation in the state convinced it that one of the most flagrant examples of excessive rates was to be found in the toll exacted by the telephone company for the service between San Francisco and the cities of Oakland, Alameda and Berkeley, on the Alameda shore.

The commission proceeded to readjust the rates. It effected reductions

which the officials of the telephone company declared would reduce the telephone bills of the public by \$20,000 per year. In practical operation, however, it has been demonstrated that the saving to the people will easily be twice that sum and that it may, in fact, amount to more than \$20,000 per year.

The telephone company had for a long time charged 15 cents as the minimum for a conversation of three minutes. The business between Oakland, Alameda and Berkeley on the one shore, and San Francisco on the other, had assumed very vast proportions. The population thus served, amounting to 750,000 people, in the very nature of the close relationship

between the cities, found more than ordinary use for the telephone. The average per capita use, therefore, was considerably above the normal.

The commission took all these matters into consideration and ordered its agents to make an investigation. They soon reported that the rate at 15 cents was unreasonable and excessive, and that a 10-cent rate would be more nearly equitable. Before the matter was taken up with the telephone company, the railroad commission had prepared all the data necessary to justify the reduction.

When the matter was taken up with the company, however, the officials of the railroad commission were able to obtain the reduced rate without litigation.

It was first intended that the reduced rate should go into effect on June 1. The company, however, pleaded for time to which to lay a new cable to meet the expected increase in business. The time was granted and the prospective date of the reduction was postponed to September 1. In the meantime, the company made plans and began to lay its new cable line.

On September 1, the rate of 10 cents went into effect. It has now been in effect long enough to permit of a practical observation of the result.

The officials of the telephone company stated that the reduction, in their opinion, would reduce their revenue by \$20,000 per year and, therefore, save that much to the telephone users. The commission believed that the saving to the people would be greater, and the facts are now at hand to determine just what that saving will be.

During 1912, up to September 1, the average number of telephone calls per day, as between San Francisco on the one hand and Oakland, Alameda and Berkeley on the other, has been 9,840. Since September 1, when the rate was cut from 15 cents to 10 cents, the average number of calls per day has been 9,840.

It thus appears that there is a saving to the public of 5 cents on every one of the 9,840 switches per day. This amounts to \$492 per day. Carried over a year, the total saving to the people will be \$179,680.

It is the belief of the commission that this saving will reach to greater figures as time proceeds.

## MERCHANTS TALK RAISIN EXCHANGE

Members of Association to  
Discuss Endorsement  
on October 8

At a meeting of the board of directors of the Merchants' Association, held yesterday afternoon, the question of taking action on the California Raisin Exchange came up for consideration, at the special request of officials of the California Raisin Exchange. It was decided to pass the matter up to the members at their next meeting in October.

The Merchants' Association has not as yet given any expression of endorsement or otherwise to this proposition, although the majority of the other civic and semi-civic bodies of the city have taken action. A request was received from the officials of the Raisin Exchange for an expression of opinion and it was this request that brought the directors together yesterday in special session.

The members of the Merchants' Association will hold their first monthly meeting since the summer vacation at the Chamber of Commerce on October 8th, and at that time it is expected that a representative of the Merchants' Association will be present.

## CHURCH TO SPEAK IN SELMA, OCT. 2

Arrangements have been made by Denver S. Church, Democratic candidate for Congress, for a meeting to be held in Selma on October 2. In addition to Church, it is expected that M. C. Gallaher will make an address and that some of the legislative and county candidates will be present.

On the night of October 3, the Democrats will organize a Wilson club at Reedley and a number are planning to attend from Fresno to address the meeting.

## MANY KILLED IN JAPANESE STORM

Thousands Driven From  
Home by Terrible  
Floods

VANCOUVER, B. C., Sept. 25.—A cable from Tokyo states that railroad and water traffic has been completely tied up since Monday as the result of a terrific storm which is sweeping over the Japanese empire, many districts having suffered the greatest property loss are Shikoku, Tokio, Osaka and Aichi. Twenty persons are reported as having been killed in the city of Nagoya and twenty buildings razed, falling into a mass of debris. The torpedo boat destroyers Fubuki and Tachibana struck rocks on the northern coast of Yokohama and are a complete wreck. Two other navy boats were blown upon the shore, where they remain stranded. Other ships in the harbor were damaged.

The city of Yatsuta was flooded and 2,000 homes submerged. The districts of Gifu, Nagano, Saitama and Kanagawa were flooded, the waves carrying many houses from their foundations. It is feared the fatalities to the surrounding districts were heavy.

## APPEALS TO RUSSIA AGAINST CHINESE

ST. PETERSBURG, Sept. 25.—A appeal to Russia against Chinese aggressors on the border of Manchuria and Mongolia has been made by Prince Un-Ai, according to a special dispatch from Tientsin to the Novoye Vremy today.

The prince is accompanied eighty miles from the Russian frontier. He declares that 5,000 of his subjects, including many women and children, have been massacred and that several members of his own family have been killed by the Chinese troops, who also looted and destroyed a number of monasteries.

# News From Central California

## JAP IS SUSPECTED IN BIG MERGER ROBBERY

Reported in San Francisco That Detectives Are on Trail of Robber

MERCED, Sept. 25.—Word has been received from San Francisco that detectives T. Francis Conlon and James Mackay scoured the Barbary coast during the past few days and also the Japanese quarter of that city in an effort to locate T. Takl, suspected of being implicated in the mysterious 10,000 robbery of the Merced county treasury on September 5. It was expected that Takl would attempt the Nippon Mura Saturday when she sailed for Japan, but the suspect is still believed to be in hiding and that he received information that he was being shadowed.

Detectives Mackay and Conlon later secured information that the suspect had been seen on the Barbary Coast, and, accompanied by their informant, they began a search.

Ever since the shortage was discovered at the monthly count in September detectives have been at work. Takl had access to the building as an employee and has been under suspicion.

## Runaway of Delivery Horse Makes Visalia Stay Dry Over Night

VISALIA, Sept. 25.—A lively scene followed a runaway this afternoon, when a delivery horse belonging to Jack Sangars, a local drayman, bolted while his driver was making a delivery on Floral street, and scattered a full case of beer bottles in his wake. After the horse was run, turning corners and dodging autos, finally coming to a standstill in front of the opera house. On picking up the scattered bottles Sangars found only three that were not broken, and he mused sorrowfully, "Somebody'll be mighty dry before he can get another case from Fresno."

## OFFICERS TO STOP SPEEDING IN AUTOS

Fines Assessed Against Two Violators of Ordinance in Hanford, One of Victims Being Young Girl

HANFORD, Sept. 25.—The campaign against speeders is being vigorously prosecuted by Hanford's speo-cops. Two victims, one a young high school girl named Millicent Weber, who was driving her father's automobile north on Dooty street yesterday after the Bryan meeting, hurrying to get back to her classes, and the other a Jap motorcyclist, were fined by Recorder Ashley today, the young woman \$10 and the Jap \$5.

## CHILD IS SCALPED BY WHEEL OF BIG WAGON

Frightful Accident Befalls Little Boy in Selma; Is Rushed to Hospital

SELMA, Sept. 25.—The 5-year-old son of Fred Dennis, who resides south of this city, is in the Selma Sanatorium with his scalp stitched on with fifty stitches, as the result of falling under the wheels of a heavily loaded wagon of peaches this afternoon. Besides having his scalp torn from his head the unfortunate little fellow is also suffering from a broken ankle. It is considered almost a miracle that his head was not crushed, and that his foot was not ground off when the wheels of the wagon passed over him. Just how the accident occurred is not definitely known, except that the boy was swinging under the wagon, which was being driven by the father, and must have fallen under the wheels. Mr. Dennis did not know that the boy was on the wagon, and it is supposed that the little fellow started out of the yard with the load of fruit. Mr. Dennis was first aware of the accident when he felt a jar and realized that he passed over something in the road, and turned around to see what it was, and was surprised to see his son on the ground. The boy did not lose consciousness, however, and although suffering intensely, bore the ordeal bravely.

Mr. Dennis at once phoned for Doctor Steinwand, who brought the little fellow into the sanatorium, where his wounds were dressed. Tonight the boy is reported to be getting along nicely and high hopes are entertained for his recovery.

## Births, Deaths and Marriages in the San Joaquin Valley

**DIED.**  
ATTEBURY.—In Turlock, September 23, 1912, Mrs. Julia Attebury, aged 75 years. Deceased had recently moved here from Alameda. Interment at San Francisco.  
BRIDWELL.—Near Madera, Sept. 24, 1912, to the wife of Fred Bridwell, a daughter.  
EATON.—In Madera, Sept. 24, 1912, to the wife of Orrie Eaton, a son.

**MARRIED.**  
MONSON-STAFFORD.—In Visalia, September 22, 1912, Seth E. E. Monson and Winnie Edna Stafford, both of Woodlake.  
MCGEE-SELICZ.—In Newman, September 22, 1912, Edward McGee and Aline Selicz, both residents of the section between Newman and Turlock.

**BORN.**  
SILVA.—In Lemoore, Sept. 20, 1912, to the wife of C. Silva, a son.  
NUNES.—In Lemoore, Sept. 21, 1912, to the wife of Antonio Nunes, a daughter.  
MILES.—In Lemoore, Sept. 22, 1912, to the wife of H. Miles, a son.  
NEAL.—In Lemoore, Sept. 22, 1912, to the wife of Mr. Neal, a son.

**LICENSED TO WED.**  
PHILLIPS-LA MARCHIE.—In Visalia, Charles Harry Phillips, 25, of Los Angeles, and Bernadette Marie La Marchie, 20, of Tulare.

## COUNCIL TO BUILD LARGE WATER TANK

Additional Pipes Make It Necessary in Turlock; More Paving Is Also Ordered by Trustees

TURLOCK, Sept. 25.—At a special meeting of the local board of trustees held last night, they decided to ask for proposals for the erection of another water tank as large or larger than the present one. This was done on account of the many extensions that are being made in the water system of this city. The extensions now under construction received an addition as a result of the meeting last night. This will contain almost a lineal mile of pipe. The trustees also decided to do some more street paving and bids will be advertised for during the next two weeks.

## Personal Mention of Prominent People in San Joaquin Valley

JOHN F. G. OSTRANDER, an attorney of Merced, is being congratulated over the fact of a son being born to his daughter, Mrs. Harvey T. Ostrander, in Oakland. Mrs. Ostrander was formerly Gladys Ostrander, and her marriage was one of the society events of Oakland last year. MRS. G. A. DUNN has arrived in Dinuba from a two months' trip through Canada. A visit was made to relatives whom she had not seen for many years.

CHARLES C. HAINES, an attorney of San Diego, has been in Merced this afternoon on business connected with the Hartley colony. He was accompanied by E. H. Laumel, one of the owners.

H. H. PHILLIPS and wife have returned to Pocatamos today, after a visit to their son, C. J. Phillips, at Tulare.

W. HADEN and wife have arrived home in Dinuba from Alabama, where they have been spending the past summer. Mr. Haden shortened his visit because of the illness of his mother.

MRS. EMMA W. IKE, of Nebraska City, Neb., accompanied by Mrs. P. T. Melish of Teane, Wash., have been spending the week at Merced with Mrs. E. M. Sweeney.

C. W. NELSON, who has been leader of the bands at Newman and Las Palms, has gone to Colton, where he will take charge of the Hot Springs band.

MRS. MIRA J. GLIDDEN, principal of the Canal district school at Selma, has returned from Berkeley, where she took the summer school course. She spent the summer with her husband and daughter. Mr. Glidden is principal of the Princeton high school, and the son is a graduate of the Selma high school, and is to join his sister at the State University.

J. W. DAVISON of Modesto has been named by President Well of the Chamber of Commerce representative to the reorganization meeting of the county board of trade. Davison will probably be the only representative from Modesto on the new board.

## MERCHANTS OPPOSE LICENSE TAX LEVY

Meeting Held and Matter Presented to Council at Porterville; Also Ask Tax Be Assessed Transients

PORTERVILLE, Sept. 25.—Porterville merchants are preparing to fight the license tax which is imposed upon merchants of this city, and at the meeting of the Merchants Association held last evening a committee was appointed to call on the city council and serve notice on them of the intention of the merchants to hereafter resist the tax. It is pointed out that of the 700-odd taxpayers within the city limits there are 120 who pay double taxes, through license of various sorts, and it is the belief of the merchants that this tax is unjust.

It was also voted that the merchants send to the council a committee to request such changes in the tax laws as will prevent transient business houses from operating here, and to this end the merchants propose that the license for such outsiders be made \$50 per day.

## PROTEST IS MADE TO SKATING RINK PLANS

Mayor of Porterville Is Asked to Stop Building Being Erected

PORTERVILLE, Sept. 25.—On the ground that it would be a nuisance to the property owners of that section of this city, Mayor Tetrault is in conference with the city attorney over the necessary measures to prevent the operation of a skating rink, which the proprietors intend to establish on Hockett street. A return of protest has arisen from property owners of that district, and they state that if steps are not taken by the city to remove the rink they will take the question into the courts.

The rink was to have been established first within the fire limits, but a strict interpretation of the building laws forbade their erecting their outfit within the fire limits. Now a piece of property has been leased in Hockett street near the mill.

City Attorney Lindsay is preparing an opinion for Mayor Tetrault today and action is expected.

## DEMURKER IS DENIED IN WONG HONG CASE

Attorney for Chinese Bank Robber Tries to Get Case Dismissed

HANFORD, Sept. 25.—To draw a distinction between "money" and "lawful money" was one of the technicalities indulged in by Attorney H. J. Brown today when he demurred to the information charging Wong Hong with grand larceny in the Superior court. He further demurred because the complaint did not state that the \$5,000 which Wong is accused of taking from the Hanford National bank early in August was "then and there the property of said Hanford National bank." Brown contended that "money" means gold or silver, whereas "lawful money" might be bank notes, currency or valuable security. The information says "lawful money." His demurrer was denied, yet in pleading he brought out a still further technical point which drew into the case the proceedings of the court of Justice G. L. Meadows.

Wong was further charged with burglary and subsequently with grand larceny. Brown contended that Wong had been placed once in jeopardy when charged with burglary notwithstanding the fact that the burglary charge had been dismissed.

The plea of not guilty was accompanied with the plea of "once in jeopardy." This time fixed for the trial of the Chinese bank robber is Oct. 2 and the following drawn jury of thirty-five persons will be subpoenaed for duty in the case: M. C. Carter, H. E. Rueck, J. S. Kallam, C. H. Bolley, Jacob Lindauer, J. H. Herford, Lincoln Sample, O. P. Quinby, A. H. Vaughn, Jay Dibble, H. S. Ogden, George Gerow, W. R. Miller, George Braliford, J. P. Denham, L. L. Low, A. E. Knapp, O. K. Fink, W. C. Wilson, C. F. Fleming, William M. Wilson, S. P. Ross, W. R. Hunt, C. H. Brooks, W. E. Brown, G. L. Clark, Louis Decker, E. L. Shook, Roch Lee, J. N. Boncher, M. S. Lisk, A. H. France, O. W. Pillsback, Harry Ayres, and M. J. Powell.

## CHOWCHILLA RANCH IS TO BE OPENED OCT. 15

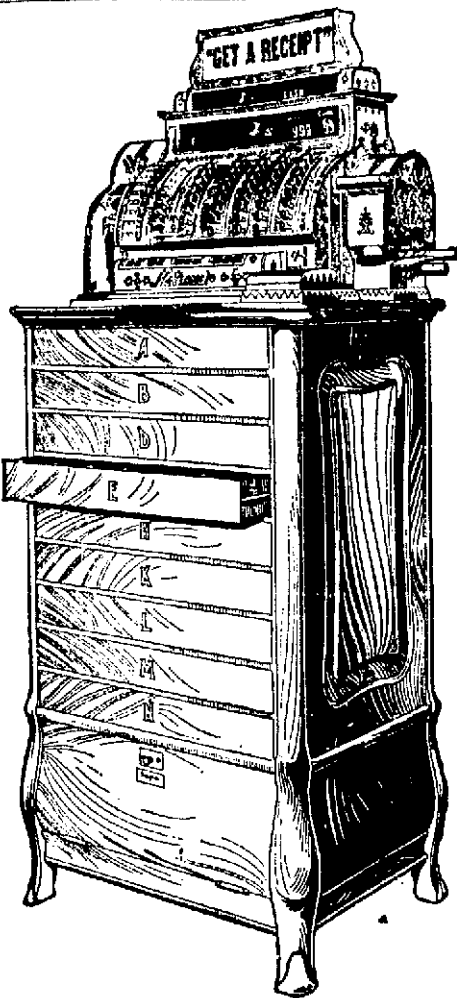

Parties Arrive in Madera to Conclude Arrangements for the Event

MADERA, Sept. 25.—D. W. Johnston and H. S. Wanger, of the Chowchilla ranch company, are in Madera today to arrange the details of the opening of the big ranch of 108,000 acres in northern Madera and southern Merced counties. They were accompanied by their attorneys, C. A. Seider, the ranch will be opened on October 15 and on that date excursions will be run to Chowchilla. The people who attend will be entertained with a big barbecue.

## RAILWAY PRESIDENT HAS BIG FIRE LOSS

PORTERVILLE, Sept. 25.—Fire this morning shortly after 10 o'clock completely destroyed the P. N. F. railway country home, together with the contents of the house, entailing a loss of \$5,500 on which there is but \$1,000 insurance. The heaviest loss is that of Mr. Nofziger's library, which had a sentimental value many times in excess of its market worth. Mrs. Nofziger is president of the P. N. F. railroad. Mr. and Mrs. Nofziger moved here from Los Angeles only a few days ago, and had just settled in their new place on North Virgilia, known as the "Woodly" ranch. The house was being repaired for temporary occupancy pending the erection of a modern home on the orchard. One of Mr. Nofziger's sons was painting the roof and in moving a paint bucket a match which was clinging to the bottom of the receptacle was set off.

Flames shot out over the newly painted roof in a second. Nofziger's pushed to the house and a piano, sideboard, cut glass, dishes, several valuable rugs and several hundred dollars' worth of wearing apparel and similar articles of furniture were saved. As the irrigation plant on the orchard is several rods from the house, and there is no water system which the fire department could use, nothing could be done to save the property.

A National Cash Register is a guardian of morals, money and method.

It protects the rights of merchant, clerk and customer.

It pays for itself out of a share of the losses it prevents.

## The Lockwood System of Dentistry Without Pain

LECTURE No. 38.

Possibly you are about to choose SOME dentist to do your dental work. This is an important matter and one that you should carefully consider before making your selection.

You should demand that the dentist of your choice has had EXPERIENCE, otherwise you are apt to be the subject of more or less work of an experimental nature.

That the dentist is THOROUGHLY SKILLED in ALL branches of dentistry should also be ascertained.

He should be conscientious in advising on matters pertaining to your teeth, for upon his judgment and advice you are obliged mostly to rely.

If he can do ANY and ALL operations without pain will certainly be to your advantage. MY SYSTEM of dentistry WITHOUT PAIN fulfills all of these requirements.

TEMPORARY OFFICE, 1149 J STREET.  
Over Fresno Hardware Co. Tel. 342.

INFORMATION by TELEPHONE

PEOPLE are not leaving so much to chance in these days of universal telephone service. Instead of risking disappointment, they telephone and get the facts.

Will school be held on a stormy morning, will your friend be in if you call, what does the weather man predict and when does the train leave—are examples of myriads of questions constantly passing over the wire, and being answered by the proper authorities.

There are also questions to be asked about the telephone service, how somebody can be reached over the Bell Long Distance Telephone and what it will cost, and similar questions, which are being answered by the information operator's.

**The Pacific Telephone & Telegraph Co.**

Every Bell Telephone is the Center of the System.

## TIDEWATER OFFICIALS

PAY VISIT TO MERCED

Believed Construction Work Will Begin Soon Out of City of Stevenson

MERCED, Sept. 25.—President Byron A. Pearce and Chief Engineer H. H. Wallace, of the Tidewater & Southern railway, were in Merced yesterday conferring with M. J. Duncan & Company relative to securing all necessary rights of way between Merced and Stevenson. The officials of the road, with Mr. Duncan, motored over the proposed route.

It is believed here that yesterday's trip is a strong indication that construction work may begin out of Merced soon.

## PROMINENT MERCED COUPLE WILL WED

MERCED, Sept. 25.—George Wohler, a well known young rancher, and Miss Froula Fruit, a Merced school teacher, both very prominent here, will be united in marriage tomorrow at the home of the bride's parents, Mr. and Mrs. Jeff Fruit, near this city. They will take a honeymoon trip to the Grand Canyon.

Del Monte Heights on the Bay of Monterey

## Your Chance to Own A Summer Home

Own a home on the coast where the climate is bracing and invigorating and the view the most beautiful to be found. School, church, electric car line, railroad station, etc. Great future for this section will make these lots advance wonderfully in value. A better investment than this one cannot be found anywhere.

**\$15 A LOT**  
**Del Monte Heights**

\$5 Down—\$5 a Month

For a Short Time Only Will These

\$50 and \$100 Lots Sell at \$15—When this Allotment Is Sold the Price Will Be Advanced to \$100.00 a Lot.

We will buy back in 1 year for \$16.50 a lot.

### Severe Cold? Go To Your Doctor

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in this cough medicine.

### MODESTAN BEATS MAN FOR ANNOYING WIFE

Trouble of Long Standing Is Said to Exist Between Belligerents

MODESTO, Sept. 25.—A. J. Sawyer, 40, of the Modesto municipal water works, was the respondent of a restraining order in the hands of Judge J. H. Pugh, yesterday, when the latter ordered that the plaintiff, Sawyer, be restrained from molesting or annoying the defendant, Mrs. Sawyer, who is the wife of the plaintiff.

### DISORDERLY WOMEN LEAVE LEMOORE ON ORDER OF OFFICERS

LEMOORE, Sept. 25.—The women of the Lemoore school were ordered to leave the school grounds by the police yesterday afternoon, after a disturbance had broken out in the schoolyard.

### IS FATALLY CRUSHED UNDER HIS OWN CART

Rancher Near Bakersfield Falls Off Lumber Load and Is Run Over

BAKERSFIELD, Sept. 25.—Mr. J. H. Pugh, a rancher near Bakersfield, was killed yesterday afternoon when he was crushed under his own cart, which had fallen off a lumber load.

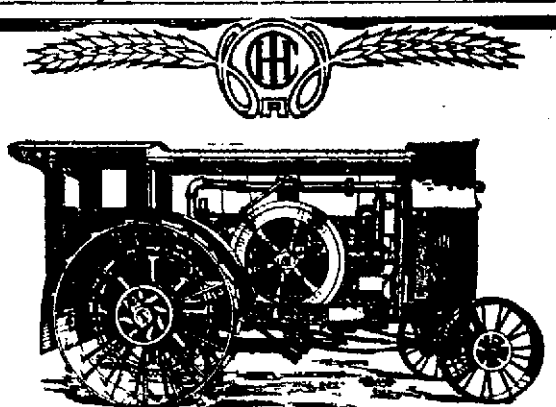

### PRETTY GIRLS WILL DISTRIBUTE BUTTER AT STANISLAUS FAIR

MODESTO, Sept. 25.—The Modesto Chamber of Commerce has arranged for the distribution of butter at the Stanislaus fair, which is being held here this week.

### SHERIFF STOPS SALE OF STOCK IN TULARE

Ranch Owner Gets Restraining Order, Alleging Unfulfilled Contract

TULARE, Sept. 25.—There was no little excitement here today when Sheriff Collins served restraining orders on W. A. Eden, a well known stock and realty man, and against V. W. Shores, an auctioneer, preventing them from holding a public auction today of the head of stock at the old heavy ranch, near this city.

### Put Your Farm on a Business Basis

YOU may be spending much more than is necessary for power to do your plowing, seeding, harrowing, cultivating, harvesting, threshing, silage cutting, hauling, etc., etc. An IHC kerosene-gasoline tractor reduces the cost of plowing from about \$1.25 an acre with horses, to less than half that amount. A like proportion of saving can be made by using an IHC tractor for the other operations.

### An IHC Kerosene-Gasoline Tractor

can be used for so many different kinds of work that you will find almost constant use for it on your farm. It furnishes the cheapest and handiest form of power for belt and draw-bar work.

An IHC tractor is simple and therefore easy to manage. It carries its own supply of fuel. It is clean and safe, making neither smoke, soot, nor sparks. There is no limit to its working hours. All bearings are protected from flying dirt, sand and grit. There are no rapidly moving parts to be quickly worn out. IHC tractors are built in 12, 15, 20, 25, and 45-horse power sizes. IHC engines for general purposes on the farm or in mill, shop, and factory are made in sizes from 1 to 50-horse power. The complete IHC engine line includes the tractors and also horizontal and vertical engines; air and water-cooled; stationary, portable and mounted on skids; built to operate on gas, gasoline, kerosene, naphtha, distillate, and alcohol. The IHC local dealer will give you catalogues and full information, or, write

### International Harvester Company of America

(Incorporated)  
San Francisco Cal.  
IHC Service Bureau  
The purpose of this Bureau is to furnish, free of charge to all, the best information obtainable on better farming. If you have any worthy questions concerning soils, crops, land drainage, irrigation, fertilizers, etc., make your inquiries specific and send them to IHC Service Bureau, Harvester Building, Chicago, U.S.A.

### FINISH LITIGATION OF PUBLISHING CO.

Decision Is Given Plaintiff in Suit of Merchants Adjustment Agency Vs. Defunct Visalia Courier

VISALIA, Sept. 25.—Judge Adams, in a decision in favor of the plaintiff in the case of Merchants' Mutual Adjustment Agency vs. Defunct Visalia Courier, yesterday afternoon ordered that the plaintiff recover the sum of \$250 from the defendant.

### WILLER WILL VOTE ON \$45,000 BONDS

Money Will Be Used for Sewer and Water Systems; Big Plans Made for Display at Fair; News Notes

WILLER, Sept. 25.—Willer is to vote on a \$45,000 bond issue on Tuesday for the installation of a sewer and water system for the town. A sewer bond was defeated here about two years ago and many gave up the idea of having a sewer system. Now that the two issues have been placed on the ballot, it is thought that the bonds will carry by a large majority.

### HAPPENINGS IN HUGHSON

HUGHSON, Sept. 25.—Hughson is beginning to run in the "Tulane" race, and our fishermen are getting out their nets and spears ready for the fall catch.

### NEEDHAM ARRANGES TOUR OF DISTRICT

MODESTO, Sept. 25.—Congressman J. C. Needham has announced his itinerary for a campaigning tour of the Seventy-first Congressional District. His first speech will be made at Reedley on the evening of October 4. He will speak in the larger cities of the district just before the election. His tour will end at Modesto on the day before election, when he will speak at a big meeting here at 8 o'clock.

### CHANGES MADE IN BOARD OF HEALTH

Complete New Set of Officials Appointed by Manford Council; Activity Promised in Future

HANFORD, Sept. 25.—Amidst the part of some of its members and the desire to quit on the part of others, effected in a radical change in the personnel of Hanford's board of health last night. No words of criticism were expressed by the city trustees, though the board of health has not been meeting in accordance with its ordinance for some time.

### HARVEST FESTIVAL PLANS ARE MAKING

Visalia Wants to Get Carnival Attraction for Thanksgiving; Fine Attractions Promised Public

VISALIA, Sept. 25.—The Visalia Chamber of Commerce has announced plans for a harvest festival to be held here on Thanksgiving day. The festival will include a carnival, a parade, and a variety of other attractions.

### CANNERY TO START PACKING IN TULARE

TULARE, Sept. 25.—The Tulare Cannery, which was placed in operation today as a fruit packing house, the plant having been leased by the Pacific Fruit Growers, company, to handle the crops in this section.

### TULARE YOUNG MEN FORM SOCIAL CLUB

TULARE, Sept. 25.—With the formation of the Young Men's social club, the community of Tulare has been enriched by a new organization. The club will hold its first meeting on Friday evening, September 30.

### WILLER WILL VOTE ON \$45,000 BONDS

Money Will Be Used for Sewer and Water Systems; Big Plans Made for Display at Fair; News Notes

WILLER, Sept. 25.—Willer is to vote on a \$45,000 bond issue on Tuesday for the installation of a sewer and water system for the town. ### Are You An American

That is, are you a regular, sure-enough American that loves his country and knows why? The kind of an American that understands what his government is, who is able to say that it is the best and biggest on earth, and then back it up with the proofs? If you are that kind of an American, but are a little shy on the information, now is the time to get wise. The new book, "The American Government," by Frederic J. Haskin, tells you all about it. When you have read it you will be heeled for an argument against all comers. Don't let this chance get by you. See the coupon elsewhere in this issue. The cost is a trifle.

On that occasion will be brought up the question of a new system of highways to connect with the state highway at this point. A report will be made by a committee of three appointed some time ago to take this matter in hand.

## BIG SERIES SCHEDULE FORMED; NEW YORK TO SEE FIRST GAME

NEW YORK, Sept. 25.—Play for the baseball championship of the world will be begun on the Polo grounds in New York at 2 o'clock Tuesday afternoon. The second game will be played in Boston the following day. Play will alternate each fair weather day between the two cities, until either New York or Boston has won four out of seven games, necessary to give the 1912 title.

Boston will conduct its series practically in its own way, with preference being given to all the season's patrons of the game, who have been canvassed.

The sale in New York will be in the hands of Secretary Heydler of the National League, and 30,000 of the 25,000 seats will be held for sale at the expense to the Polo grounds, and one to each purchaser, on the day of the games.

The umpires for the series will be O'Loughlin and Evans of the American League, and Higley and Klein of the National League.

These are the principal features of the arrangements perfected today by the National Baseball Commission. The meeting virtually was a series of contests preliminary to the championship and resulted in the New York Nationals twice winning over the Boston Americans, the American League president declaring the National Commission defeating effectively. It is believed, any possibility of a repetition of the ticket speculation scandal in this city, which occurred the series last year.

**BUSH CHOOSES DATE.**  
Advantage of an early start on home grounds was lost to Boston, when at the time of a rain on Monday, President Bush of New York called "rain" and President McAlister of Boston, chose "heads." The coin fell tails.

The Boston club desired to start the series, Monday, October 1th. President Bush regarded Monday as a poor day for an opener in New York, and probably he foresaw an advantage in giving his team an extra day's rest after their probably late eluding of the pennant title. He wanted the games to begin Tuesday. On the toss of a coin, Bush won.

Determined to abide by his declaration that the Boston Americans should handle the sale of tickets in their own way, President Johnson of the American League had come to the meeting to fight it out.

The American League president was

## HESTER COLUMBUS STAKE TAKEN BY DAVE HALLE

Columbus, O., Sept. 25.—Dave Halle, a 40-year-old teacher, owned by Frank of Memphis and driven by T. W. Murphy, today won the Hester Columbus \$10,000 stake. Four heats, the first being taken by David McLean in 2:04.1, were required. The winner's last lap was 2:00.3. At every finish, three horses were tipped. Anna Ashe was the second, the winner of the three-year-old racing horse review. Halle's victory was a surprise, as he was not expected to win. He was over 100 pounds. Halle won the stake in 2:04.1. The second, Anna Ashe, won in 2:04.1. The third, Ruth McLean, won in 2:04.1. The fourth, Ruth McLean, won in 2:04.1. The fifth, Ruth McLean, won in 2:04.1. The sixth, Ruth McLean, won in 2:04.1. The seventh, Ruth McLean, won in 2:04.1. The eighth, Ruth McLean, won in 2:04.1. The ninth, Ruth McLean, won in 2:04.1. The tenth, Ruth McLean, won in 2:04.1. The eleventh, Ruth McLean, won in 2:04.1. The twelfth, Ruth McLean, won in 2:04.1. The thirteenth, Ruth McLean, won in 2:04.1. The fourteenth, Ruth McLean, won in 2:04.1. The fifteenth, Ruth McLean, won in 2:04.1. The sixteenth, Ruth McLean, won in 2:04.1. The seventeenth, Ruth McLean, won in 2:04.1. The eighteenth, Ruth McLean, won in 2:04.1. The nineteenth, Ruth McLean, won in 2:04.1. The twentieth, Ruth McLean, won in 2:04.1. The twenty-first, Ruth McLean, won in 2:04.1. The twenty-second, Ruth McLean, won in 2:04.1. The twenty-third, Ruth McLean, won in 2:04.1. The twenty-fourth, Ruth McLean, won in 2:04.1. The twenty-fifth, Ruth McLean, won in 2:04.1. The twenty-sixth, Ruth McLean, won in 2:04.1. The twenty-seventh, Ruth McLean, won in 2:04.1. The twenty-eighth, Ruth McLean, won in 2:04.1. The twenty-ninth, Ruth McLean, won in 2:04.1. The thirtieth, Ruth McLean, won in 2:04.1. The thirty-first, Ruth McLean, won in 2:04.1. The thirty-second, Ruth McLean, won in 2:04.1. The thirty-third, Ruth McLean, won in 2:04.1. The thirty-fourth, Ruth McLean, won in 2:04.1. The thirty-fifth, Ruth McLean, won in 2:04.1. The thirty-sixth, Ruth McLean, won in 2:04.1. The thirty-seventh, Ruth McLean, won in 2:04.1. The thirty-eighth, Ruth McLean, won in 2:04.1. ## EXILES DENY HAVING REVOLUTIONARY PLANS

Castro, Zelaya and Diaz Say  
They Are Not Acting  
in Concert

NEW YORK, Sept. 25.—Rumors which have been current recently in the Spanish-American colony here of plans for a series of new revolutionary movements under the guidance of Castro in Venezuela, Zelaya in Nicaragua, and Diaz in Mexico, are denied by the three ex-presidents in cables statements published by the Tribune today.

Some of the junta leaders here declared recently that Castro, Zelaya and Diaz, all of whom are at present abroad, were acting in concert and had held secret conferences in furtherance of their plans to foment practically simultaneous insurrections, in all of which anti-American sentiment was to play a large part.

Castro's statement, sent from the Canary Isles, denies that he proposes to get even with his enemies, but the two other ex-presidents deny emphatically that they are planning any revolutions. Castro admits that he has no connection with Diaz and Zelaya. "We have no affinity of interest," he says.

General Diaz is quoted as follows: "I am not personally acquainted with Zelaya or Castro and I only hope is to the re-establishment of peace in my country. I will not return to Mexico unless in the case of a foreign war."

General Zelaya, from Barcelona, declares that his political career is ended and adds that under no circumstances will he go back to Nicaragua, even if his compatriots call him by placards.

## HAS NEWS OF LAND DESOLATED BY ASHES

SEATTLE, Sept. 25.—The revenue cutter Manning, the first of the Bering sea patrol boats to leave the North, arrived at Port Townsend today. The cutters sailed north with instructions to relieve all cases of distress that came in view, and the Manning, which was close to Kodiak Island when Mount Katmai began to shower ashes, carried out her orders so well that President Taft sent a letter of commendation to Captain K. W. Perry.

Rations will be issued all winter to the 600 destitute natives of Kodiak Island and Shelikof Strait, and the distribution will be under the direction of Lieutenant Kelster of the Manning, who remained in the north. The government herd of 150 cattle on Kodiak Island also must be fed through the winter. Last winter there was pasturage, but the ashes which covered the island have made it a desert.

When they're apt to "get up" close, slip in a **Remington-UMC Scatterload**.—and make your choke bore gun good for brush or thicket shooting.

Arrow and Nitro Club steel lined Scatterload Shot Shells give the same uniformly open pattern at 25 yards that standard loading gives at 40. And with greater penetration.

A special system of wadding gives the spread. The steel lining gives speed plus perfect pattern assurance.

## INDOOR BALL PLAYERS ORGANIZE FOR SEASON

The High School indoor baseball league held a meeting last night and all rules and regulations were drawn up for the present season. The following officers were elected: Newton Hyrd, president; James Brazil, treasurer and secretary. The captains of the teams are: "Tyke" Leap, "Tiny" Turner, Lewis Dodge, and James Brazil.

Last year the Greens, under Captain Brazil won the championship. This year promises to be a successful one due to the many freshmen interested in the sport. The league will open next Monday on the Hay Grounds, and a large bunch of centers is expected to be on hand to root for the various teams. Millard Streeter was appointed official scorer.

## HORGAN TAKES BILLIARD MATCH FROM JOE CARNEY

SAN FRANCISCO, Sept. 25.—John Horgan, champion three cushion billiard player of the world won his first game of 100 point match with Joe Carney here tonight. One hundred and twenty-two innings were played, at the end of which the score stood, Horgan 50, Carney 40. Each made a run of five points.

**BILLY PAPKE WINS FIGHT**  
NEW YORK, Sept. 25.—Billy Papke, outpunched Jack Benning of New York in a ten round bout tonight.

**FOR RENT:** Modern five room dwelling in good condition on "J" street, four blocks north of Mariposa street. Rent reasonable. Apply at once to **PIERCE & ANDERSON.**

## PLANNED TAFT COUP FAILS AT STATE CONVENTION

Hoped to File Their List of  
Electors First and  
Enjoin Jordan

Roosevelt Forces, Learning  
of Plan, by Quick Work,  
Defeated It

A coup planned by Senators Wolfe and Wright at the Republican state convention yesterday failed to materialize, first because a few of the Roosevelt delegates were informed about it early in the morning and secondly because the Roosevelt people did just what the Taft people planned to do and did it first, as the Taft people had planned to do, according to a statement made last night by W. A. Sutherland, who returned from the convention.

The plan of the Taft people was to hold before the Roosevelt electors had been named, hold a quick meeting and file the names of the Taft electors with the secretary of state. They then intended to enjoin the secretary of state from putting the Roosevelt electors in the Republican column on the ballot, on the grounds that their electors were not only Republican electors but their list had been filed first.

When the plan of the Taft forces first became known, the Roosevelt leaders were in a quandary as to what to do to combat it. The plan of action and the action itself came almost simultaneously later in the day, and in a way quite unexpected.

The committee on presidential electors had submitted its report and with it was submitted a minority report, bearing the names of the Taft electors. As the roll call was being held on the minority report, Senator Wolfe called Sutherland to one side and asked him to read the separate resolution of endorsement of Roosevelt and Johnson, before the majority report roll call was taken. Sutherland agreed that he would read it immediately after the roll call on the majority report of electors, if Wolfe would hold his people in the convention. This Wolfe agreed to do.

The order of business provided for the selection of electors and then the selection of a central committee, before consideration of the platform and the separate resolution, which were to be the pretext for the Taft bolt, should be taken up.

Sutherland informed Boynton of the agreement between Wolfe and himself and the change was immediately decided upon. There was a great deal of surprise when Sutherland arose, immediately after the conclusion of the first roll call and introduced the resolution.

Senator Wolfe followed Sutherland with an argument against the resolution and while he was arguing, the Roosevelt people slipped down and filed the list of electors with the secretary of state.

Wolfe informed the convention that it was at his request that Sutherland had agreed to take up the resolution and as he turned to Sutherland to

## CLARENCE DARROW TO SPEAK HERE TONIGHT

Famous Criminal Lawyer to  
Talk on "Industrial  
Conspiracies"

Clarence Darrow, of Chicago, will speak at the Barton tonight on "Industrial Conspiracies," under the auspices of the Fresno County Building Trades' Council. A small admission fee to be charged and after the expenses of Darrow's trip here have been paid the remainder will be sent to Indianapolis for the defense fund of the officials of the Structural Iron Workers, who are under indictment for transporting dynamite for criminal purposes.

Darrow spoke at Bakersfield last night on the same subject and was greeted by a large crowd. Darrow has been making a speaking tour since he was acquitted by a jury in Los Angeles on a charge of jury bribing in connection with the McNamara trial. Members of the Fresno County Bar association will attend the meeting tonight, their regular meeting having been postponed. Superior Judge Church will preside.

## MALAGAS HAVE SHOWN NO ADVANCE AS YET

Total Shipment From This  
District Last Week  
Was 236 Cars

FRUIT SHIPMENTS  
Shipments reported..... 2,661  
Shipments yesterday..... 31  
Total to date..... 2,692

While some have been looking for an advance in Malaga prices, reports received here in the past few days do not indicate that any improvement can be expected, although in a few scattered instances a few cars have been sold at good prices. Some cars have sold as low as \$400, but the average have sold for about \$300 or \$350, which is about 30 cents a crate.

The total shipment of fruit out of this district last week amounted to 236 cars, but this week the shipments are much lighter and will probably be little more than 150 cars. The lowest week thus far has been 131 cars, except one or two weeks at the very beginning of the season.

have his statement confirmed, the Fresno assemblyman replied in the affirmative and laughed at Wolfe, for he had seen the certificate from the secretary of state's office. It was only then that Wolfe realized what had happened.

The Roosevelt people had hoped to keep the Taft forces and compel them to vote on the platform, thus taking away all pretext for a bolt, but the plans of the Taft people for the filing of the names of electors, made it necessary to abandon these plans and substitute instead, the procedure that was taken.

## REALTY EXCHANGE IS MEMBER OF STATE ORGANIZATION

Hears of Coming State Con-  
vention at Supper Given  
at the Hughes

James G. Stafford Explains  
Important Subjects Up  
for Consideration

Upon the visit here yesterday of James G. Stafford of the State Realty Federation, the Fresno Realty Exchange reaffiliated with the state body of the local exchange at an "informal supper" at the Hughes last evening. He told of the coming state convention of the federation in Los Angeles, Oct. 10-12, and urged that Fresno send a large delegation.

In the course of an address Mr. Stafford said:

"Organization for mutual benefit and protection, and for the purpose of giving better service to their clients and customers, has become a well recognized feature of modern business life, and it seems almost superfluous to represent it in any form.

"Co-operation for the accomplishment of the greatest good to the greatest number" is becoming more and more a cardinal principle of present day business. In every line of human endeavor the principle of 'getting together' and of 'pulling together' to the end that better business methods, better service, and more profits will accrue to the individual is too apparent to either be asserted or denied. In fact, too much organization in some lines is at the root of many of the economic evils of the present era, but for all that it must be admitted that organization of interests are necessary to accomplish the best results in any form of business.

"Through all the period of organization of the other businesses of the world at large, the real estate men have been 'going it alone.' Little cliques or circles fighting each other, individuals distrustful of the man next door, no co-operation, no fraternal feeling, no adequate way of getting all the information in the business to enable each to give the better sort of service to the client.

"When one stops to consider that the real estate interests are four or five times larger than the banking interests, and that real estate pays from 70 to 90 per cent of the taxes, this great business should be better organized, and should have more influence in the future than in the past to shape laws, and designate the line along which the country shall develop."

Mr. Stafford outlined the work and plans of the California State Realty Federation, to the effect of the proposed state legislation affecting all real estate men, and showed how each man in the business was being benefited through the activities of the California State Realty Federation in this particular direction. State legislation requiring that real estate men take out a state license, pass an examination, put up a bond for the honest conduct of the business, and providing penalties for transacting a real estate business without such a license, will, in the opinion of the state organizer, result in more protection to the real estate man, and to the real estate investor, and eliminate the many undesirable features connected with competition with the unscrupulous and dishonest dealers, and with people who properly should not be in competition with the real estate men, notably the bankers, lawyers and public officials, chambers of commerce secretaries, of the small town.

Brief addresses were also made by William Glass, W. W. Phillips and J. N. Levinson. Mr. Glass spoke on the necessity of organization and co-operation, urging particularly active support by the real estate men of the Real Estate Exchange as a proposition making for general prosperity.

W. W. Phillips, president of the Chamber of Commerce, forcibly suggested to the real estate men that they encourage new settlers to engage in diversified farming and bring to Fresno manufacturing industries. Further planting, for the present at least, of grain or wine grapes and peaches, should not be encouraged.

Levinson in a speech of three sentences told of the common interests of newspapers and realty men.

## POLICE LOOKING FOR MISSING BALL PLAYER

The Fresno police yesterday received a circular from the Los Angeles police department, asking that a strict watchout be kept for James Frick, infielder for the Oakland baseball team, who disappeared from the Rosslyn Hotel in Los Angeles the middle of this month. No reason is known for Frick's disappearance and friends fear that he has met with foul play, so the officers were requested to take up the search.

Frick weighs about 160 pounds and is 28 years old. He is dark complexioned with straight black hair. When last seen he was wearing a tan striped suit and a black fedora hat.

## 215 PETITIONS FILED FOR VERIFICATION

Task Has Not Been Easy to  
Secure Names to New  
Nomination Papers

Secretary Ray Baker filed yesterday afternoon for verification by the county clerk 215 petitions for the recommendation of presidential electors on the Republican Progressive party ticket. The county committee was told to secure 1,000 such nomination papers, but it is certain that the full number will not be secured. Yesterday was the last day for the filing of these nomination papers to give the county clerk the full ten days for verifying the signatures before he can give up the certified result to the secretary of state. The petitions were circulated last night at a Solina meeting and will be given further promotion today on verification time borrowed from the county clerk and granted by him. It has not been an easy task to secure signatures, because no one who voted at the primary election can help with his name the additional nomination by petition. The signed up batch was filed yesterday to start the verification work.

## PACKERS REFUSE TO PAY OVER TWO CENTS

Giffen-Hobbs Co. Makes  
Sales to East as Low  
as 4½ Cents

In order to make deliveries on their low sales of earlier in the year and low sales now being made, Guggenheim Company, the Guggenheim Packing Company, Giffen-Hobbs Company, and a few more of this kind, are refusing to pay more than two cents for raisins.

The Giffen-Hobbs company has made sales as low as 4½ cents for fancy seeded and has indicated that it is not opposed to going even lower. A 4½ cent sale is equivalent to 2 cents in the sweatbox.

The crop is very late and the earlier cured goods are showing up very poor in quality, because of the fact that they were picked too green. On Thompsons, many are securing extensions for delivery and on Muscats the general opinion seems to be that the first of the heavy movement of new crop will not start much before the 10th of September.

The marketing that has been done by these packing interests in the past few months, has practically stopped eastern business, although a large amount of goods have been sold at low prices. Instead of presenting an advancing market, the packers have been working in a very possible way to secure a falling market. This has made the eastern trade afraid to buy, because it believes that even cheaper figures may be obtained.

## BLUE RIBBON GOODS HERE FOR THE FAIR

Fresno County's Prize Win-  
ner at Sacramento Ar-  
rives in Special Car

The material which was used to make the Fresno county exhibit at the state fair in Sacramento last week arrived here yesterday in a box car over the Southern Pacific. The display won the first prize of \$500 and the ribbon in the class A division at the state fair. This exhibit was prepared by Secretary William Robertson of the Chamber of Commerce and his assistant, J. M. Swift, and was one of the largest in the agricultural section at Sacramento. It required all the space in one of the large furniture cars of the Southern Pacific to transport the material to Fresno.

The big car was sidetracked in the local yards yesterday afternoon and today the material is to be hauled to the county fair grounds, where under the supervision of Secretary Robertson and Assistant Swift the agricultural products are to be set up before the end of the week in preparation for the opening of the fair next Tuesday. The exhibit will be placed in the center of the main pavilion and its presence will probably attract a great deal of attention. The blue ribbon, which was won at the recent state fair, will be framed and placed in a conspicuous place for the admiration of the public.

## JUDGE H. F. BRIGGS STARTS CAMPAIGN

Police Judge Herbert F. Briggs, who has been at his office in the city hall all summer with the exception of a few days when he was absent because of sickness, yesterday closed the doors of police court and from now on will make a vigorous campaign throughout the county for Judge of the Superior Court. While Judge Briggs is campaigning City Justice Graham and Justice of the Peace Smith will look after the police court dockets.

## KEEPS HOGS TOO NEAR HIS HOUSE

Charged with keeping hogs too near his home and their neighbors, Constable Fox of 121 Geneva avenue was arrested by Constable Drenth yesterday and taken before City Justice Graham where he pleaded guilty. Sentence will be imposed Friday. The arrest was made on complaint of Dr. V. T. Burke, county health physician. The physician claims that it was unsanitary to keep the hogs so near the house and that it was public nuisance.

## GATO TO SPEAK IN FRESNO SATURDAY

The Socialist Congressional candidate J. S. Gato who has been campaigning through the northern counties of this district the past month will deliver a lecture at 7 o'clock Saturday from his "red speech" automobile at the Court House fountain on Saturday the 28th.

—Whiting paper is the most exclusive made, and the designs are always beautiful. 50c will buy a box of this paper, best then quality; put up in pretty box; makes a dainty and acceptable gift.

Our Millinery—  
High in Style,  
But Not in Price

## REGISTERED VOTE IS YET BELOW ESTIMATE

Only Nine Days More to  
Qualify for November  
Election

With the closing day only nine days off there has been no activity in registration at the county house. Registration is still considerably below the estimate vote. What activity there has been at the registration bureau since the primary election has been in the matter of transfer because of changes in residence.

According to estimates a registered vote of from 32,000 to 35,000 has been figured upon and up to the primary election the registrations numbered between 24,000 and 25,000 calculated on the sample ballots mailed to addresses of voters actually on the register. Since the election there have been probably several thousand additional registrations so that there is a deficit of possibly 8000 voters according to the estimate on the basis of outside figures. This number will undoubtedly be reduced because there are blank affidavit registration books out among the deputies. These deputies are scattered in every part of the county at every postoffice and crossroads, as County Clerk Barnwell put it. They are under instructions to turn in their books as empty as filed but few have come in. Each book contains the affidavit for 25 voters. Nor will the woman vote line up as large as the first district election as expected. It is doubtful whether the woman vote will represent more than 30 per cent of the total registration.

## PHOTO OF DETECTIVE HUNG AT CITY HALL

An enlarged photograph of Detective James L. Cronkite, who died about a week ago, has been hung in Chief of Police Jones' private office. The photograph is in an expensive frame and is a fine likeness of the well known officer. The photograph was enlarged and framed at the expense of the members of the police force.

## FRESNO BOYS JAILED FOR SELMA BURGLARY

From a description furnished by Constable Harry Stanley of Selma, Police Detectives Farnum and Goehring yesterday morning arrested Frank Ames and Nicholas Fizzolara, Fresno youths, who are accused of burglary. The youths are alleged to have entered a garage at Selma and to have stolen automobile and bicycle tires. The plunder is said to have been pawned by them in this city. The youths were taken to Selma last night by Constable Stanley.

## Globe-Wernicke Sectional Bookcases

Let Your Bookcase Grow Along  
With Your Library

Before Globe Wernicke's were made, bookcases often showed gaping rows of empty shelves. No need for that now. You can buy your shelf room as you need it for your new books. Globe-Wernicke are the best. Fitted with dust-proof glass doors. We are agents.

## Wormser Furniture Co.

Fresno's Foremost Furniture Firm  
Lowest Prices Easy Terms Public Storage
